MIDDLE SCHOOL

Kemtec™ Odontology - One Bite Out of Crime

One of the ways in which modern forensic science can positively identify an individual is through dental records, since teeth not only differ from person to person in the same way that fingerprints differ, but they last longer than other physical elements after death.

MIDDLE SCHOOL

Kemtec™ Robbery at Anytown Mall

Students use the scientific process to type blood and analyze hair, fingerprints, handwriting, fabrics, and fibers. They use evidence, observation, experimentation, interpretation, personal profiling, and deductive reasoning to crack the case.

HIGH SCHOOL

Kemtec™ Forensics Kit: Analysis of Drugs and Poisons

This kit enables students to identify several common over-the-counter drugs through chemical analysis of simulated body fluids. It teaches students test procedures for controlled substances and heavy metal poisoning as well as amino acids in body fluids as part of a simulated poisoning.

Find the Right Glass and Plastic Labware for Your Classroom

Buying Guide

A variety of flasks, test tubes, beakers, graduated cylinders, and dishes are used in most classroom laboratories. As many of these items are available in glass or plastic material, this guide can help you better understand the differences and decide which materials are best suited to your users and applications.

Glass

Glass labware in the U.S. is typically made of borosilicate or soda lime glass. Its specifications are subject to specific international standards. Glassware can also be categorized by ASTM Class, which refers to the volumetric tolerance of the glassware. While there are no general tolerances — they are specific to individual pieces of glassware — Class A is more stringent than Class B.

International Glass Standards

| Glass Type | ASTM* E-438 | U.S. Pharmacopoeia (USP) | European Pharmacopoeia (EP) |
|---|----------------|--------------------------|-----------------------------|
| 3.3 Expansion Borosilicate Glass | Type 1 Class A | Type 1 | Type 1 |
| 4.9 Expansion Borosilicate Glass (Clear) | Type 1 Class B | Type 1 | Type 1 |
| 5.4 Expansion Borosilicate Glass (Amber) | Type 1 Class B | Type 1 | Type 1 |
| 7.8 Expansion Soda-Lime Glass (Amber) | Type 2 | Type 3 | Type 3 |
| 9.1 Expansion Soda-Lime Glass (Clear) | Type 2 | Type 3 | Type 3 |

USP Glass Types

| Type 1 | Type 2 | Type 3 | Type NP |
|---|---|--|--|
| <ul style="list-style-type: none"> Least reactive glass available for containers Lab glass apparatus is generally Type 1 For all applications: <ul style="list-style-type: none"> Water for injection Unbuffered products Chemicals Sensitive lab samples Samples that require sterilization Products that are alkaline or will become alkaline | <ul style="list-style-type: none"> De-alkalized soda-lime glass Less resistant to leaching than Type 1; more resistant than Type 3 Use for products that remain below pH 7 | <ul style="list-style-type: none"> Soda-lime glass Suitable for alkali-insensitive liquid formulations Can be dry-heat sterilized; not autoclavable | <ul style="list-style-type: none"> Soda-lime glass General purpose; for non-parenteral applications Use for capsules, tablets, and topical products |

Chemical Characteristics of Glass

| 3.3 Expansion Borosilicate Glass | Neutral Borosilicate Glass | Soda-Lime Glass |
|---|--|--|
| <ul style="list-style-type: none"> Highly resistant to water, acids, salt solutions, halogens, and organic solvents Can be corroded by hydrofluoric acid, hot concentrated phosphoric acid, and strong alkaline solutions | <ul style="list-style-type: none"> Chemically resistant Often used to store or package injectable solutions or acidic, neutral, or alkaline products | <ul style="list-style-type: none"> Less chemical resistance than borosilicate glass Used to store dry powders and other general purposes |

Plastic

Plastic labware is made from a variety of plastic resins, all of which have specific strengths and weaknesses.

The most common are:

- Polypropylene (PP)
- Polystyrene (PS)
- Low-density polyethylene (LDPE)
- High-density polyethylene (HDPE)
- Polycarbonate (PC)
- Polymethylpentene (PMP)
- Polyvinyl chloride (PVC)
- Polytetrafluoroethylene (PTFE)
- Polymethylmethacrylate acrylic (PMMA)
- Polyethylene terephthalate (PET)
- Polyethylene terephthalate glycol (PETG)
- Polybutylene terephthalate (PBT)

Plastic Properties

| Plastic Type | Temperature Max. | Temperature Min. | Transparency | Flexibility | Microwavable | Autoclavable | Gas | Dry Heat | Radiation | Disinfection |

Glass vs. Plastic

When choosing labware, consider specific conditions, users, and substances with which the labware will be used. This table includes some of the characteristics of the various materials used to make labware.

| Material | | Transparency | Chemical Resistance | Maximum Temperature | Break Resistance | Microwaveable | Autoclavable |
|----------|----------------------------------|--------------|---------------------|---------------------|------------------|---------------|--------------|
| Glass | Borosilicate | Clear | Excellent | 230°C (446°F) | Breakable | Yes | Yes |
| | Soda Lime | Clear | Excellent | 100°C (212°F) | Breakable | Yes | No |
| Plastic | Polypropylene (PP) | Translucent | Excellent | 135°C (275°F) | Excellent | Yes | Yes |
| | Polystyrene (PS) | Clear | Poor | 90°C (194°F) | Fair | No | No |
| | Low-Density Polyethylene (LDPE) | Translucent | Good | 80°C (176°F) | Good | Yes | No |
| | High-Density Polyethylene (HDPE) | Translucent | Good | 120°C (248°F) | Good | No | No |
| | Polycarbonate (PC) | Clear | Poor | 135°C (275°F) | Good | No | Limited |

| | Polyvinyl chloride (PVC) | Clear | Fair | 70°C (158°F) | Fair | Yes | No |

Glass

Plastic

| Advantages | Disadvantages | Advantages | Disadvantages |
|--|--|------------------------------------|--|
| Can be heated without melting or breaking | Breakage can result in sample loss or exposure to contents | Lightweight, flexible, unbreakable | Not as transparent as glass |
| Easier to clean, reusable | Not disposable | Typically for single use | Graduation marks are more difficult to see |
| Better graduation mark visibility | Requires cleaning or autoclaving | Affordable | Affected by high temperatures |
| Chemically resistant to most acids and alkalis | Not suitable for storing hydrofluoric acid | May be reusable | May not be compatible with all chemicals |

Bags

Bel-Art™ Bench-Top Biohazard Disposal Bags

For disposal of tips and tubes.

- Bright red
- Features one long flap for easy opening
- Printed with biohazard symbol and sterilization indicator patch
- Made from high molecular weight high-density polyethylene
- Pass ASTM 1922 Tear Resistance and ASTM 1709 Dart Impact Tests
- Size allows bag to be inverted over hand to safely pick up waste
- Steam autoclavable at 121°C (250°F)

Bel-Art™ Bench-Top Biohazard Bag Holder

Economical and convenient, this benchtop disposal system is perfect for collecting pipette tips, microcentrifuge tubes, etc. during daily use.

- Rectangular steel wire frame to hold one polyethylene bag of dimensions 8.5 x 11 in. (22 x 28 cm)
- Available with epoxy coat in orange color
- Comes with snug fitting polypropylene plastic cover to hold bag securely in place
- Reusable and allows cleaning by hand or in automated dish washers
- Autoclavable
- Also used with Clavies Autoclavable Bags H13182-0812

COMPLIANCE: When used with lid, provides compliance with 29 CFR 1910.1030(d)(2)(xiii) (A), which requires a cover on any container used to store, transport or ship biohazardous wastes.

Eisco™ Low Form Beaker, Borosilicate Glass

These high quality, affordable beakers are perfect for any science classroom or laboratory.

- High-quality borosilicate 3.3 glass
- Feature beaded rims and spouts for easy pouring
- White, chemical-resistant graduations and markings
- Low temperature gradient - can withstand high temperatures and thermal shocks
- Superior chemical durability
- Autoclavable at 121°C
- Eisco LabGlass has the following heat tolerances: Strain point 515°C, annealing point 565°C, softening point 820°C

Eisco™ Berzelius Beakers with No Spout

Borosilicate glass, tall form, ideal for titrations, white enamel markings, high chemical durability, low temperature gradient, withstands high temperatures and shocks.

- Uniform walls of Berzelius tall-form beakers are ideal for heating and stirring during titrations. Their smaller diameter makes them easier to handle than low form beakers of the same volume
- Tall form beakers without spout are ideal for containing and storing samples
- 500 mL capacity beakers feature white enamel markings with 50 mL graduations labeled every 100 mL. Conforms to DIN 12231 and ISO 3819 standards
- Made from heavy-duty borosilicate 3.3 glass
- Microwavable and autoclavable.

Eisco™ ASTM Low Form Glass Beaker

Extremely durable, with a low temperature gradient, and superior chemical resistance. Features a spout for easy pouring.

- Made from high-quality borosilicate 3.3 glass
- White graduations for easy visibility
- Can withstand high temperatures and thermal shocks
- Superior chemical durability
- Low form
- Autoclavable at 121°C
- In compliance with DIN 12231 and ISO 3819 standards
- Graduated per ASTM-E960

United Scientific™ Media Bottle Starter Pack

The Media Bottle Starter Pack features borosilicate glass general purpose media/storage bottles that are autoclavable with permanent white imprinted graduations and marking spots and are supplied with a GL-45 Polypropylene Cap.

- Made from low-expansion borosilicate glass with extra-thick walls, this beaker is ideal for tough handling conditions, including mechanized washing
- Bottles have white printed graduations and a marking area
- Tolerance is approximately ±5%

Includes:

- (2) 100 mL with 20 to 80 mL graduations
- (3) 250 mL with 50 to 200 mL graduations
- (3) 500 mL with 100 to 400 mL graduations
- (2) 1,000 mL with 100 to 900 mL graduations

United Scientific™ Amber Reagent Bottles

Made from HDPE and protect samples with light sensitivity.

- The amber bottles are designed to reduce UV light transmission to protect light-sensitive contents and conform to USP requirements for storage of light sensitive materials.
- Excellent chemical resistance to most acids, bases, and alcohols.
- Polypropylene caps are included.
- Meet USP requirements for storage of light-sensitive materials.
- Manufactured from USP Class VI resin that is FDA-21CFR compliant for food contact.
- Free of heavy metals, with leakproof closure with integrated seal ring.
- Precision molded for consistent wall thickness and smooth interior and exterior surfaces.

†The term leakproof applies to Thermo Scientific Nalgene products that meet the following criteria: a) Bottle/flask/funnel closure systems with closures smaller than 100mm, after they are filled with water, inverted, withstand air pressure of 2psig for two minutes, and no water escapes; b) Bottle/funnel/flask closure systems of larger than 100mm after they are filled with water, inverted for 15 minutes, and no water escapes. Note: these tests, using other liquids, may not yield the same results. To ensure safe usage, customers are advised to test Thermo Scientific Nalgene bottles and closures under conditions of their planned applications. Thermo Scientific Nalgene products are leakproof at ambient temperature and pressure when used with their Nalgene closures.

Carts

fisherbrand Laboratory Carts and Tables

Transport a variety of lab supplies, equipment and containers.

- 4 in. diameter casters, 2 with toe locks

Eisco™ Steel Retort Base Stand and Rod Set

Premium quality metalware built to provide maximum stability through years of rugged lab applications.

- Set includes (1) stamped steel retort base and (1) steel rod
- Base is powder-coated for chemical resistance, includes threaded hole in center of short end
- Steel rod includes 10 x 1.5 mm threading

WARRANTY: 1 year limited manufacturer

| S27091 | Retort Base and Rod Set | 1 | Each |

Support Foot

Support foot for attaching to a bench, floor, or wall.

- Constructed of zinc
- With set screw for fastening lattice frame rods
- Foot has 4 holes for attaching

| Cat. No. | Description | Quantity | Unit of Measure |
|----------------------------|-------------------------------------|----------|-----------------|
| 13-684-164 | Support Foot for Lattice Frame Rods | 10 | Pack |

Lattice Connector

Lattice connector constructed of cast aluminum with a smooth round surface for connecting lattice rod supports for laboratory apparatus.

- Rods can be joined at right angles in the same plan
- Allows removal or addition of rods to a laboratory setup without disturbing the whole structure
- Screws are easily tightened with the allen wrench
- Flush screws eliminate the inconvenience of protruding locking devices

| Cat. No. | Description | Quantity | Unit of Measure |
|----------------------------|---------------------------|----------|-----------------|
| 13-684-136 | Slotted Lattice Connector | 12 | Pack |

Eisco™ Vertical Pipette Stand

Made of quality, chemical-resistant polypropylene, this pipette stand can hold up to 28 pipettes and includes a weighted base and draining disc.

- Made of quality, chemical-resistant polypropylene
- Top disc holds pipettes of varying sizes: 10 holes measure 13 mm, and 18 measure 11.5 mm
- Discs can be adjusted on the center rod according to the length of the pipettes
- Assembled, the stand measures 18.5 in. tall with a diameter of 9.25 in.
- Highly chemical-resistant
- Autoclavable at 121°C
- Draining disc with 4 mm pilot holes can be used to rest the pipette tips and allow liquids to drain down

Eisco™ Chemistry Lab Starter Set

12-piece set includes everything needed for a basic chemistry laboratory station.

Includes:

- Base 25 x 16 cm, 1800 g (S24239)
- Stainless steel rod 750 mm (S02624)
- Retort ring of 75 mm diameter (12-000-108)
- Double burette clamp (S07858)
- Retort ring of 100 mm diameter (12-000-109)
- Two prong adjustable clamp (S41720)
- Three prong adjustable clamp (S41721)
- Tripod stand (S14083)
- Burner tubing (S12817)
- Wire gauge 150 mm (S95949)
- Bosshead (S24267)
- Bunsen Burner (S12809)

Eisco™ Laboratory Scissor Jack

Crank the adjustable knob to adjust the height of laboratory items with these sturdy steel laboratory scissor jacks. The jacks provide stable support for various types of laboratory equipment.

- Durable powder-coated steel laboratory scissor jack
- Adjustable height with easy to turn knob
- Smooth, screw-operated scissor-action mechanism
- Strong, stable support for laboratory equipment
- Blue finish

Condensers & Distillation

Eisco™ Advanced Organic Chemistry Distillation Glassware Set 24/29 with Case

The perfect set for organic chemistry labs, distillation, fractional distillation, separation, purification, and synthesis.

- 17 piece set with 22 interchangeable fittings
- All pieces made of 3.3 borosilicate glass that is hand blown and polished for perfect fit
- Metalware stands not included in set
- Comes with durable plastic case & tray with custom foam inserts to hold all components

Set consists of: Liebig condenser, dropping funnel, reduction adapter, air Leak/steam inlet, receiver adapter, multiple adapter, 250 mL Erlenmeyer flask, 250 mL round bottom flask, 100 mL round bottom flask, 50 mL round bottom flask, 2 stoppers (19/26), 1 stopper (24/29), socket cone, thermometer

Microscale Kit

Includes all the components necessary to perform the Williamson experiments described in *Macroscale Microscale Organic Experiments*.

- Features Santoprene™ chaste connector and specially tooled glassware components
- Connections can be assembled "right-side up" or "upside down," providing great versatility
- **Set includes:** Connecting adapter, filter adapter, pluro stopper, thermometer adapter, 15 mL centrifuge tube with snap cap, chromatography column, glass 150 mm with disc, one way stopcock, PE/nylon, connector, connector, connector only, fkm, connector with support rod
- Replacement parts can be ordered separately

Eisco™ Student Distillation Kit

This student distillation kit contains everything needed for a simple distillation demonstration.

- Simple set up, perfect for student use
- Contains everything needed to set up a distillation demonstration
- All glassware is made from high-quality borosilicate glass
- Each set includes: 300 mm Liebig condenser, 50 mm diameter Kjeldahl ball, 500 mL boiling flask, 500 mL Erlenmeyer flask, metal tripod stand, wire mesh gauze, cast iron support stand with rod, two prong clamp with bosshead

WARRANTY: 1 year limited manufacturer

Corning™ PYREX™ Deluxe Microchemistry Kit

Microchemistry requires smaller volumes than traditional organic chemistry, produces faster reactions and results in less waste.

- Kit is supplied with all the necessary PYREX components needed to perform experiments covered in the Mayo, Pike, and Butcher text: Microscale Organic Laboratory
- Components come in Standard Taper 7/10 and 14/10 joint sizes
- A selection of conical reaction vials from 0.1 mL to 5.0 mL capacity is included
- All components are mounted in foam within a polyethylene case for easy storage
- Can reorder replacement parts

United Scientific™ Organic Chemistry Glassware Sets

Deluxe set of 16 pieces.

- Suitable for preparations up to 150 g
- Comes in a sturdy, form fitting case

Contents:

- 1 Still Head (14/23)
- 1 Receiver (19/26)/Cone (14/23)
- 1 Air Leak/Steam Inlet Tube (14/23)
- 1 Liebig Condenser (19/26)
- 1 Dropping Funnel (100 mL)
- 1 Reducing Adapter
- 1 Multiple Adapter
- 3 Round Bottom Flasks (50 mL, 100 mL, 250 mL)
- 1 Erlenmeyer Flask (250 mL)
- 1 Stopper
- 3 Thermometer Pocket
- 1 Receiver Adapter

Eisco™ Distillation Kit

Includes 15 pieces of glassware made from high-quality, heavy-duty borosilicate 3.3 glass.

- All pieces have 19/22 tapered joints
- Hard-shell briefcase with fitted foam inserts is included for convenient and safe storage
- Case features a locking system, handle, and rubber stoppers

Set consists of: Lieber Condensers (2), Glass Stirring Rod, Cone/Screwcap Adapter, Multiple Adapters (2), Receiver Adapter with Vacuum Connection, Dropping Funnel with Stopcock, 500 mL Roundbottom Flask, 250 mL Roundbottom Flask, 100 mL Roundbottom Flask, 50 mL Roundbottom Flask, 25 mL Roundbottom Flask, Glass Stoppers (2)

United Scientific™ Distillation Apparatus

Includes all the materials necessary to construct an inexpensive, versatile distillation apparatus.

- 500 mL filtering flask
- 500 mL round-bottom borosilicate flask with side tube
- 300 mm Graham condenser
- 250 mL Erlenmeyer flask
- Glass stopper
- 6 x 9 in. (15.2 x 22.9 cm) support stand with 24 in. (61 cm) rod
- Swivel buret clamp
- Extension clamp
- Clamp holder
- Activity guide

Eisco™ Glass Two-Neck Distillation Flask

Glass two-neck distillation flask features one oblique neck, screw threading in both necks, and standard socket size.

- Made from high-quality borosilicate 3.3 glass
- Features round bottom and 2 necks: screw thread neck and oblique neck
- Extremely durable
- Low temperature gradient
- Superior chemical resistance
- Connect firmly to other glassware with the help of threaded joints
- Threaded joints provide additional safety in every lab
- Autoclavable

Low Form Crucibles with Lid

Uniform density provides stable mechanical strength and low permeability.

- Lab-grade porcelain
- Glazed piece can withstand temperatures of 1050°C
- Dimensions: 51 x 25 x 30 mm

Low Form Porcelain Crucibles with Lids

Constructed with uniform thickness and density for stable mechanical strength.

- High-quality, low form porcelain crucibles
- Porcelain is dense and uniform in thickness which allows stable mechanical strength and minimal permeability
- Glazed on the inside and outside surfaces, including lids
- When properly used the glazed pieces can withstand temperatures of 1,050°C

⚠️ ALERTS: Intended for ages 13 and up.

United Scientific™ Cylindrical High Alumina Crucible

NEW

These high alumina crucibles allow for higher temperature usage compared to porcelain.

This cylindrical-form crucible is crafted from 99.7% pure aluminum oxide, ideal for high-temperature work demanding contamination-free results.

- Maximum use temperature is 1750°C (3182°F)
- Temperature change rate should not exceed 150°C (302°F) per hour
- High-alumina products are highly refractory, meant for use in reducing and oxidizing atmospheres
- Material is inert in hydrogen and carbonaceous atmospheres and offers high resistance to alkalis and other fluxes
- Recommended for use with refractory metals
- Suitable for glass melting, including borosilicate glass

United Scientific™ Tall Form High Alumina Crucible

These high alumina crucibles allow for higher temperature usage compared to porcelain.

This cylindrical-form crucible is crafted from 99.7% pure aluminum oxide, ideal for high-temperature work demanding contamination-free results.

Class A, Reusable – Clear Glass Measuring Cylinders with Detachable Base and Collar

NEW

Calibrated on a state-of-the-art fully automatic calibration machine. Printed in durable amber stain which fuses into the glass. Features a generous pour spout and a large hexagonal base for stability and safety from rolling if tipped.

- Calibrated "To Contain"
- Made from low-expansion Borosilicate 3.3 glass in conformance with ASTM E-438 TYPE 1 Glass A glass and DIN ISO 3585 Standard
- Cylinders are calibrated as per DIN ISO 4788 standard and calibrated to contain (In TC) at a $+20^\circ\text{C}$ reference temperature
- Conformity batch certificate available
- Chemical, heat and impact-resistant
- Autoclavable
- Easy to read

United Scientific™ Class A Polymethylpentene Measuring Cylinder

PMP cylinders are crystal clear to allow you to see your sample easier.

Polymethylpentene cylinders have glass-like clarity and feature easy-to-read molded-in graduations.

- Hexagonally-shaped bases for extra stability
- Large spouts for smooth flow of liquids during pouring
- Autoclavable to 121°C
- Meets accuracy requirements of Class A under DIN 12681

Eisco™ TPX Graduated Cylinders – Class A

Class A TPX graduated cylinder featuring raised/molded graduations, octagonal base for maximum stability, and spout. Easy to read, with amazing clarity.

- High-quality TPX plastic graduated cylinders
- Single-piece construction
- Superior optical clarity
- Easy-to-read, molded graduations
- Good chemical resistance
- Octagonal base for maximum stability
- Spout for easy pouring
- Class A
- Autoclavable

United Scientific™ Class B Polymethylpentene Measuring Cylinder

PMP cylinders are crystal clear to allow you to see your sample easier.

Polymethylpentene cylinders have glass-like clarity and feature easy-to-read molded-in graduations.

- Hexagonally-shaped bases for extra stability
- Large spouts for smooth flow of liquids during pouring
- Autoclavable to 121°C
- Meets accuracy requirements of Class B under DIN 12681

Desiccators

fisherbrand Acrylic Desiccator Cabinets

Dust- and moisture-free storage in refrigerators, freezers and on benchtops.

- Ideal for storing anhydrous and hygroscopic biological and chemical compounds, as well as electronic assemblies and any components requiring controlled storage conditions
- Neoprene gasket on door ensures tight seal
- Door is secured with two stainless-steel latches (large size has three latches) and full-height hinge
- Removable, lipped tray holds solid desiccant
- Shelves are removable, adjustable and vented to maximize airflow

United Scientific™ PP/PC Non-Vacuum Desiccator with White Base

Non-vacuum desiccators that include a perforated plate.

- These autoclavable desiccators are made of polypropylene (PP) and polycarbonate
- Autoclavable at 120°C for 15 minutes
- The top dome, molded in rigid and transparent PC, gives a crystal-clear view of the sample
- The knurled knob on the top provides easy handling of the dome
- The lower part is made of PP. An internal groove on the flange holds the silicon rubber O-ring
- Vacuum grease should be applied on the flanges to make it air-tight

Eisco™ Plastic Desiccator

Lightweight and easy to move, this plastic desiccator helps to preserve moisture-sensitive items in the classroom or laboratory.

- Autoclavable
- Made of polypropylene and polycarbonate
- Holds vacuum up to 740 mm of Hg for 24 hrs
- Internal groove is provided on the flange to hold a silicon rubber O-ring
- Polypropylene stopcock fitted with a self lubricating PTFE plug
- PTFE Plug works in three ways: vacuum creation, shutting off, and vacuum releasing

Eisco™ Desiccators Vacuum

Glass vacuum desiccator includes borosilicate glass base, lid, stopcock, and porcelain plate. Useful for preserving hygroscopic chemicals and removing moisture from solid materials.

- Made with high-quality borosilicate 3.3 glass
- Includes 24 cm diameter porcelain plate
- Ideal for removing moisture and preserving hygroscopic materials
- Glass stopcock with vacuum attachment included

Eisco™ Glass Desiccator with Porcelain Plate

Typically used for the storage of hygroscopic, moisture-sensitive chemicals and reagents.

- Includes glass cover with knob and unglazed porcelain plate
- Constructed of high quality, heavy duty 3.3 borosilicate glass

Eisco Labs Borosilicate glass has the following heat tolerances:

- Strain point: 515°C
- Annealing point: 565°C
- Softening point: 820°C

United Scientific™ Borosilicate Glass Desiccators

Clear, non-vacuum desiccators manufactured from borosilicate glass to provide excellent visibility.

- Includes borosilicate glass lid with a molded-in knob
- Clear glass provides excellent visibility and can be autoclaved
- Desiccator rims and lid are made of ground glass
- Greasing before use is required to create an air-tight seal
- A perforated porcelain desiccator plate is included and fits onto a ridge above the lower chamber
- Standard drying agents such as silica or anhydrous calcium chloride can be positioned in the lower chamber

Corning™ PYREX™ Watch Glass/Beaker Cover with Fire-Polished Edges

Molded for table stacking.

These watch glasses possess high chemical durability, thus preventing contamination of solutions. They are molded to the same radius of curvature for convenient stacking. The heavy wall and uniform fire-polished edge provide mechanical strength. The outside diameter cannot be controlled within close limits and a slight degree of out-of-round can be expected to occur.

Corning™ PYREX™ Reusable Petri Dishes

Flat, clear dishes with beaded edges withstand repeated sterilization (wet or dry)

The edges are beaded to provide greater mechanical strength. The bead also provides a means to equally space the side walls of the bottom and cover, thereby reducing the capillary action of condensed moisture on the sides. They are not affected chemically or thermally by any of the methods commonly employed in laboratories where sterilization is a major factor in routine or in specialized work. The covered dish is not airtight. The tops are marked in blue enamel and the bottoms in white enamel to make sorting easier. Bottoms also have a triangular, enamel reference point for serial dilutions.

fisherbrand Petri Dishes with Clear Lid

Feature a new and improved design and packaging.

- Made from medical-grade, gamma sterilized polystyrene
- Ventilation ribs on the lid allow for air circulation
- Manufactured in a state-of-the-art cleanroom facility
- Packaging features a UPS™ shippable outer carton to prevent damage
- Product sleeve is made from a strong polymer to prevent bag holes
- Dishes packed in easy-open product sleeve with tear notch
- Product sleeves are vacuum sealed to prevent scuffing and other damage to dishes
- Height: 15 mm

| Cat. No. | Shape | Diameter | Quantity | Unit of Measure |

United Scientific™ Glass Double Convex Lens, Unmounted

Made from plate glass, with carefully ground and polished optical surfaces, and cleanly ground edges.

- Diameter: 38 mm, Focal Length: 200 mm

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|------------------------------|----------|-----------------|
| S81505 | Double Convex Lens Unmounted | 1 | Each |

Eisco™ Glass Coplin Jar

Glass Coplin Jar with a molded glass cover is for staining and washing slides.

- Glass Coplin jar with molded glass cover for staining slides
- Holds up to 5 slides
- Fits 25 x 75 mm slides

WARRANTY: 1 year limited manufacturer

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|---------------------|----------|-----------------|
| S89497 | Coplin Staining Jar | 1 | Each |

Eisco™ Plastic Coplin Jar

Plastic Coplin Jar includes a screw cap cover and is designed for staining and washing slides.

- Polypropylene jar
- Holds 5 slides (or 10 slides back-to-back)
- Fits 25 x 75 mm slides
- Threaded screw top

WARRANTY: 1 year limited manufacturer

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|--------------------------|----------|-----------------|
| S89498 | Poly Staining Coplin Jar | 1 | Each |

Eisco™ Porcelain Spot Plate

White porcelain spot plates are ideal for observing reactions with color changes.

- Spot plate made of porcelain
- Available with six or twelve wells
- White for good visibility of color change reactions
- Perfect for any laboratory

| Cat. No. | No. of Wells | Quantity | Unit of Measure |
|------------------------|--------------|----------|-----------------|
| S27076 | 6 | 1 | Each |
| S26588 | 12 | 1 | Each |

Eisco™ Polyethylene Spot Plate

To perform reactions on small amounts of material. Made of high-density polyethylene.

- Bright white color to view reactions
- Wall thickness: 1.5 mm
- Wells hold approximately 1.5 mL

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|----------------------------|----------|-----------------|
| S13973 | Polyethylene 12 Well Plate | 1 | Each |

United Scientific™ Spot Plate

Economical, white plastic plates.

- Each plate measures 112 x 92 mm

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-------------|----------|-----------------|
| S99406 | Spot Plate | 12 | Pack |

Droppers

United Scientific™ 2 mL Eye Dropper

Eye Dropper for use with dropping bottles.

- Glass pipettes with tapered rubber bulbs
- For general use or use with dropping bottles

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-------------|----------|-----------------|
| S81066 | Dropper | 12 | Pack |

Electrical Supplies

United Scientific™ Wire Stripper

Quickly removes insulation without damaging wire.

- Set-screw adjusts stripper to fit wire gauges from 10 to 24
- Made from drop-forged, heat-treated steel with black baked enamel finish
- PVC handles
- Total length: 4 in. (10.1 cm)

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|---------------|----------|-----------------|
| S99397 | Wire Stripper | 1 | Each |

Eisco™ Platinum Wire Loop

Designed for use in flame tests. Housed in a glass tube and fused onto a glass handle for ease of use and safety.

- Platinum wire loop
- Supplied in borosilicate glass tube
- Wire loop is fused onto a glass handle

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|--------------------|----------|-----------------|
| S39825 | Platinum Wire Loop | 1 | Each |

United Scientific™ AA Cell Battery Holder with Leads

Battery holder for multiple electricity demonstrations.

- AA battery
- Made of unbreakable plastic
- Curved tabs prevent the battery from falling out when the holder is inverted

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-------------------|----------|-----------------|
| S81056 | Battery Holder AA | 1 | Each |

United Scientific™ D Cell Battery Holder and Joiner

Battery holder for multiple electricity demonstrations.

- Single holders can be snapped together in parallel or series to extend capacity or voltage
- Includes male and female button snaps on ends to allow series connections, and includes extensions on sides for parallel connections

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|----------------------------------|----------|-----------------|
| S81068 | D Cell Battery Holder and Joiner | 1 | Each |

Eisco™ Stackable Battery Holder

Extend capacity or voltage.

- Designed to link together in parallel or series
- Sold individually

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|--------------------------|----------|-----------------|
| S05853 | Stackable Battery Holder | 1 | Each |

Eisco™ Connecting Leads with Alligator Clips

Enable quick, temporary electrical connections.

- Length: 12 in. (300 mm)
- Alligator clips at both ends
- Insulated
- Quick, temporary electrical connections

| Cat. No. | Color | Quantity | Unit of Measure |
|------------------------|-------|----------|-----------------|

Eisco™ Connecting Leads With Plug and Alligator Clip

Works well for electrical or laboratory testing applications.

- Alligator clip at one end, 4 mm plug on other end
- Insulated
- Great for electrical testing applications
- Works well in physics classroom and lab settings for assembling circuits quickly

| Cat. No. | Length | Color | Quantity | Unit of Measure |
|------------------------|--------------|-------|----------|-----------------|
| S13986 | 40 in. (1 m) | Black | 1 | Each |

Eisco™ Connecting Leads With Plugs

Great for physics labs or any application requiring the assembly of basic circuits.

- 4 mm (0.15 in.) insulated plug on both ends
- Great for physics classrooms and labs

| Cat. No. | Length | Color | Quantity | Unit of Measure |
|------------------------|-----------------|-------|----------|-----------------|
| S13988 | 6 in. (150 mm) | Black | 1 | Each |

| S13990 | 30 in. (750 mm) | Black | 1 | Each |

Eisco™ Crocodile Lead Set

Crocodile lead set includes 10 leads, each with a crocodile clip at both ends covered with a plastic sleeve. Leads provide a sturdy, safe tool for conducting electricity experiments.

- Set of 10 crocodile leads in 5 colors
- Includes 2 white, 2 red, 2 green, 2 black, and 2 yellow leads
- Each lead includes a crocodile clip in plastic sleeve

WARRANTY: 1 year limited manufacturer

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|----------------|----------|-----------------|
| S40932 | Crocodile Lead | 1 | Pack |

Eisco™ 10 Light Emitting Diodes (LEDs)

LEDs provide a colored light source while using very little energy.

- Standard high quality 5 mm LEDs
- Feature colored diffused lenses
- Maximum voltage 3.0 V D.C.
- Ideal for use on PCB or panel mount calibrations on a circuit board
- Pack of 10

WARRANTY: 1 year limited manufacturer

| Cat. No. | Color | Quantity | Unit of Measure |
|------------------------|--------|----------|-----------------|
| S40931 | Yellow | 1 | Pack |
| S40930 | Green | 1 | Each |
| S40929 | Red | 1 | Each |

Knife Switch with Screw Posts

For low voltage experiments (less than 36V).

- Plastic bases
- Available with either thumbscrew or spring binding posts
- Available in single/double pole, single/double throw combinations

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|---------------------------|----------|-----------------|
| S12877 | Single pole, single throw | 1 | Each |

Eisco™ Knife Switches

Rugged construction on a durable plastic base that stands up to tough student use.

Poles and knives are made of brass for good electrical connections. Available in single pole, single throw and single pole, double throw configurations.

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|---------------------------|----------|-----------------|
| S23687 | Single pole, single throw | 1 | Each |
| S23688 | Single pole, double throw | 1 | Each |

Eisco™ Carbon Resistors

Quality carbon resistors for electrical experiments and general wiring in the laboratory.

- Quality carbon resistors
- Perfect for electrical experiments and general wiring
- Pack of 10

WARRANTY: 1 year limited manufacturer

| Cat. No. | Electrical Requirements | Quantity | Unit of Measure |
|------------------------|-------------------------|----------|-----------------|
| S40940 | 100 Ohms, 0.5 W | 1 | Each |
| S40941 | 470 Ohms, 0.5 W | 1 | Each |
| S40942 | 1,000 Ohms, 0.5 W | 1 | Each |

Eisco™ Metal Electrodes Set

High-quality metal electrodes for student electrochemical experiments.

- 100 x 19 mm
- Set of 7: aluminum, copper, nickel, tin, iron, zinc, and carbon rod

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|------------------|----------|-----------------|
| S14014 | Metal Electrodes | 7 | Pack |

True RMS Auto-Ranging Digital Multimeter

Measures AC/DC voltage, AC/DC current, resistance, diode test and continuity plus thermocouple temperature.

- Also, adds capacitance, frequency and duty cycle to the range of measurements possible
- Includes operations manual detailing features

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-------------------------|----------|-----------------|
| S05502 | Auto Digital Multimeter | 1 | Each |

AC/DC Variable Power Supply

Handles all power needs between 2V and 12V.

- Use the rotary knob to adjust voltage, the rocker switch to turn it on and off, and the toggle switch to reset
- Pair of blue ports will output an alternating current (AC)
- Red and black pair of ports will output a direct current (DC)

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-----------------------------|----------|-----------------|
| S38991 | AC/DC Variable Power Supply | 1 | Each |

Digital Ammeter

Used to measure the current or amperage (A) flowing through a circuit.

- Easy-to-read display
- Runs on a 9V battery

| Cat. No. | Amperage | Style | Quantity | Unit of Measure |
|------------------------|---------------|--------|----------|-----------------|
| S38996 | 0 to 199.9 mA | DAM-04 | 1 | Each |
| S38997 | 0 to 1.999 A | DAM-05 | 1 | Each |

Digital Voltmeter

Measure the potential difference, or voltage (V), between two points in a circuit.

- Easy-to-read display
- Runs on a 9V battery

| Cat. No. | Voltage | Quantity | Unit of Measure |
|------------------------|----------|----------|-----------------|
| S38999 | 199.9 mV | 1 | Each |
| S39000 | 1.999 V | 1 | Each |
| S39001 | 19.99 V | 1 | Each |

Eisco™ M-830 L Digital Multimeter

Digital multimeter with LCD display and drop-resistant case.

- Comes with red and black Leads, battery and instruction manual
- 5 mm high LCD screen
- D.C. Voltage 200 mV - 600 V $\pm 0.5\%$ ± 2 digit
- A.C. Voltage 200 V - 600 V $\pm 1.2\%$ ± 10 digit D.C.
- Current 200 μ A - 10 A $\pm 1\%$ ± 2 -digit
- Resistance 200 Ohms - 2 M Ohms $\pm 0.8\%$ ± 2 -digit
- Transistor test NPN & PNP range 0 - 1,000
- Test voltage VCE - 3V, $3\frac{1}{2}$ digit
- 7 segments diode test: Yes
- Continuity test: Yes
- Fuse protection F 200mA / 250

WARRANTY: 1 year limited manufacturer

RedSight PRO Red LED Flashlight with Carabiner Clip Attachment

Contains nine red LED bulbs, ideal for reading astronomy star maps and helping preserve night vision.

Features:

- Nine red LED bulbs and two brightness settings
- Helps keep eyes dilated to preserve vision
- Compact, lightweight, ergonomic design
- Powered by 3 AAA batteries (not included)
- For reading astronomy star charts, using telescopes in the dark

Includes:

- Handle comes with glow-in-the-dark green rubberized grip
- Carabiner clip for backpack, keychain or belt loop

WARRANTY: 1 year limited

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-----------------------------|----------|-----------------|
| S81155 | Redsight Pro Red Flashlight | 1 | Each |

LEDSight PRO LED Flashlight with Carabiner Clip Attachment

The LEDSight PRO flashlight is compact, portable, includes nine powerful LED bulbs, and has two brightness settings to conserve battery life.

- Compact and lightweight
- Glows in the dark after being in the sun
- For camping, hiking, backpacking, power outages, hunting, dog walking, natural disasters, outdoor emergencies, and travel
- Powered by 3 AAA batteries (not included)
- **Includes:** Carabiner clip can attach to belt loops, backpacks and key rings

WARRANTY: 1 year limited

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-----------------------------|----------|-----------------|
| S81727 | LEDSight Pro LED Flashlight | 1 | Each |

UVSight PRO UV Flashlight with Carabiner Clip Attachment

The UVSight PRO UV flashlight contains nine ultra violet LED bulbs, and emits 380 nm wavelength light for a fluorescent glow.

- Compact, lightweight flashlight
- Includes two brightness settings
- Glows in dark after being in sunlight
- Powered by 3 AAA batteries (not included)
- For detecting pet stains, auto leaks, counterfeit currency/passports, fake IDs, minerals, gemstones, forensics, scorpions, insects, reptiles, and resin curing
- **Includes:** Carabiner clip attachment for belt loops, backpacks, and key rings

WARRANTY: 1 year limited

Films and Foils

Laboratory Wrapping Film

Efficient and cost-effective covering for test tubes, beakers, vials, petri dishes, flasks, and various other instruments and objects with irregular surfaces.

- Protect the integrity of research applications with a tight moisture barrier that holds a strong seal and doesn't release from glassware, despite off-gassing
- Reduces the risk of tampered data with a covering that is odorless, colorless and semi-transparent
- Prevents moisture and volume loss due to material composition and tight seal
- Flexible and self-sealing material allows it to cling around irregular shapes and surfaces
- Stretches more than 200% of original length
- Resistant up to 48 hours against many polar substances such as saline solutions, inorganic acids and alkaline solutions
- Not recommended for use with chlorinated, non-polar aliphatic and aromatic solvents
- Film becomes soft and sticky at about 130° to 150°F (54° to 66°C)

Permeability

- Oxygen: (ASTM 1927-98) 150 cc/m² d at 23°C and 50% RH
- Carbon dioxide: (modulated IR Method) 1200 cc/m² d at 23°C and 0% RH
- Water vapor: (ASTM F1249-01)
- Flat: 1 g/m² d at 38°C and 90% RH
- Creased: 1 g/m² d at 38°C and 90% RH

Effects of Common Reagents

- Potassium permanganate 5%:
- No apparent effect except permanent dark brown coloration in 18 hours
- 0.1%: Same as 5% except slightly less color
- Iodine solution (0.1N)
- No effect except staining brown in 18 hours
- Ethyl alcohol (95%)
- No apparent effect except some face whitening in 24 hours
- No apparent effect in 24 hours:
- Hydrochloric acid conc. (12N) dil. (5N)
- Sulphuric acid conc. (36N) dil. (5N)
- Nitric acid conc. (16N) dil. (5N)
- Sodium hydroxide conc. (22%)
- Ammonium hydroxide conc. (28% NH₃)
- Salt (NaCl) solution (20%)
- Isopropyl alcohol (99%)

Qualitative Filter Paper: Grade 1 Circles

Covers a wide range of laboratory applications and is frequently used for clarifying liquids.

Widely used standard grade filter papers for routine applications with medium retention and flow rates.

- Used in qualitative analytical techniques to determine and identify materials and for clarifying liquids
- Particle Retention: >11µm
- Porosity: medium
- Filtration speed: ASTM™, 40 sec.; Herzberg, 150 sec.
- Surface: smooth
- Separates precipitates such as lead sulfate, calcium oxalate (hot) and calcium carbonate
- Used for soil analysis and seed testing procedures in the agricultural industry
- Used to separate solid foodstuffs from associated liquid or extract liquid in the food industry
- Atmospheric dust is collected from airflow and the stain-intensity measured
- Impregnated with a chromogenic reagent and color formation quantified by optical reflectance for gas detection

Eisco™ Glass Filtration Assembly

Glass Filtration Assembly for vacuum filtration of tissue culture media, biological fluids, HPLC and other aqueous solutions.

- For use when using a vacuum source to filter liquids into a vessel
- Filter provides an effective filtration of 9.6 cm²
- Designed to maximize flow and reduce foaming

Assembly includes:

- 300 mL borosilicate glass funnel
- Highly-integrated sealed 47 mm fritted glass support base
- 1,000 mL flask
- Aluminum clamp holds filter funnel and support base properly

WARRANTY: 1 year limited manufacturer

United Scientific™ Filtering Kit

An excellent, faster-working alternative to traditional gravity-based liquid filtration.

With hand vacuum pump and activity guide.

Contents:

- 500 mL filtering flask
- 90 mm porcelain Büchner funnel
- Hand vacuum pump with gauge
- 90 mm filter papers (pack of 100)
- Rubber stopper
- Vacuum hose

Narrow-Mouth Erlenmeyer Flasks

Economical and versatile; ideal for general laboratory usage.

- Glass reinforced tops tooled with a rounded finish — contain more glass for maximum mechanical strength
- Thick-walled body has long tapered outside contour to minimize chipping when struck or rubbed together
- Durable white ceramic enamel scales indicate approximate volumes at various levels — useful for measuring and mixing solutions where a high degree of accuracy is not necessary

COMPLIANCE: Glass meets Type 1, Class A, ASTM E-438 standards. Designed to ASTM specification E1404, Type I, Class 1 specification requirements.

Corning™ PYREX™ Filtering Flasks with Sidearm Tubulation

Tubulations for easy connections to filter pumps.

These flasks, with tubulation, are blown in special molds, in shapes designed to give maximum mechanical strength. For convenience, the flasks are graduated to show approximate capacity. The neck finish affords an excellent fit for rubber stoppers. Tubulation O.D. on sizes up to 1,000 mL is approximately 10 mm. Tubulation O.D. for 2,000 mL, and 4,000 mL is approximately 12.5 mm.

Hydrometers

Eisco™ Universal Laboratory Hydrometer

Measures specific gravity within the range of 0.700 to 2.000 with 0.01 graduations and a dual scale for light or heavy liquids.

- Universal laboratory hydrometer
- Includes hard plastic case
- Dual scale for light and heavy liquids
- Graduations: 0.01

| S80850 | 0.700 to 2.000 | 1 | Each |

H-B Instrument™ Durac™ Specific Gravity/Relative Density Plastic Plain Form Hydrometers

For precise specific gravity measurements.

- Made from optical-quality polycarbonate material
- Durable and shatterproof
- Made in U.S.A.
- Available in models measuring specific gravity/relative density (g/cm^3) of a variety of liquids in various ranges from 1.0 to 1.620
- Easy-to-read black scale on yellow back to help avoid eye fatigue
- 300 mm (12 in.) long
- Lead-free ballast
- Individually serialized
- Temperature standardization: 15°C (60°C)

Applications:

Ideal in situations where rough handling or contamination could be an issue, such as in the food or beverage industries.

CERTIFICATION: Made and hand inspected by a U.S.A. quality teams in an exclusive triple accredited/registered ISO/IEC 17025:2005 and A2 LA Accredited Calibration Laboratory; internationally recognized and accepted by the signatory economies of the ILAC/MRA and located in ISO 14001:2004 Environmental Management System registered facility. Packaged with a multi-language (English, French, German, Italian, Portuguese, and Spanish) Statement of Accuracy indicating accuracy traceable to NIST.

⚠️ ALERTS: Polycarbonate hydrometers are not recommended for use with petroleum-based liquids or other corrosives that would potentially affect the plastic material. They should be stored in a clean, dry, safe place and should not be subjected to extreme temperature.

Thermo Scientific™ Nalgene™ Vacuum Chambers

Eliminate the risk of implosion or shattering at full vacuum with these vacuum chambers. Useful as a controlled environment for degassing operations and freeze drying, vacuum chambers are available with transparent PC or amber PEI bell jar.

Features:

- Useful as a controlled environment chamber for degassing operations and freeze drying
- Available as polycarbonate or polyetherimide with white polypropylene or polycarbonate plate
- Transparent

Includes:

- Transparent PC or Amber PEI bell jar
- Gasketed white polycarbonate vacuum plate

⚠️ ALERTS: Do not expose jar to partially halogenated hydrocarbons or their vapors. Avoid direct exposure of all chemicals to the polycarbonate plate. Do not autoclave when used for vacuum service. Do not use the polycarbonate jar (Cat. No. 01-060A) with organic solvents, acids or bases.

Eisco™ Ultimate Plastics Kit, 15 Piece

Convenient and student-friendly set designed to support hands-on science exploration during remote or classroom and lab activities. Features 15 pieces of essential plasticware. Beakers and cylinders can be easily nested for compact storage.

Includes:

- 5 beakers in 50, 100, 250, 500, and 1,000 mL
- 4 measuring cylinders in 10, 25, 50, and 100 mL
- Five 3 mL disposable pipettes
- 1 nylon bristle cleaning brush
- Beakers and measuring cylinders are made of high-quality, chemically-resistant polypropylene, and feature excellent contact clarity in addition to raised graduations
- They are easy to clean with the included nylon bristle cleaning brush
- Beakers and measuring cylinders are microwavable, autoclavable, and have very good chemical resistance
- Disposable pipettes are made of LDPE, have a 3 mL capacity and raised, 0.5 mL graduations. Each measures 6 inches in length and a 0.5 inches bulb diameter.
- Nylon bristle cleaning brush is perfect for scrubbing hard to reach corners of the included measuring cylinders and beakers
- Brush has a twisted metal handle. Measures 9 inches in total length
- Bristles cover 3.75 inches of the wire handle and are 0.75 inches in diameter
- Eisco Labs proudly manufactures its own products using state-of-the-art equipment, and following the highest standards of quality control
- Each product is carefully designed by a team of laboratory professionals and experienced engineers with quality and durability in mind

United Scientific™ Classroom Laboratory Set

NEW

This Laboratory hardware set is a convenient set of the most commonly used chemistry classroom items. Almost all of the items (except for pH paper and wax glassware marking pencil) are durable and reusable.

Includes:

- Beaker set of 5, borosilicate glass, (1 each 50, 100, 250, 600 and 100 mL)
- Clamp, 3-prong extension with boss head, die-cast zinc with chrome plating, 2.25 in. jaw opening, (2)
- Crucible tongs, 9 in., plated steel
- Crucible, porcelain, wide-form with cover, 50 mL capacity
- Erlenmeyer flask set of 5, borosilicate glass, (1 each 50, 125, 250, 500 and 1,000 mL)
- Funnel, utility, polypropylene, 25 mL capacity, 30 mm stem length
- Graduated cylinder, borosilicate glass, 5 mL capacity
- Graduated cylinder, borosilicate glass, 10 mL capacity
- Graduated cylinder, borosilicate glass, 25 mL capacity
- Laboratory tray, polypropylene
- Laboratory scoop, stainless steel, 6.5 in. length
- Pencil, wax marking for glassware
- pH paper, wide range, 100 strips
- Safety goggles, chemical splash, PVC with polycarbonate lens, ANSI Z87.1-2020 certified
- Spatula, stainless steel, 6 in. length, both ends flat
- Stirring rod, flint glass, 8 in. long, 5 mm diameter, (2)
- Support ring with bosshead clamp, cast iron, 3 in. diameter
- Support stand with rod, stamped steel, black enamel finish, 5 x 8 in. base with 20 in. rod
- Test tubes with rack, 12 tubes with 24 mL capacity and rubber stoppers, polypropylene unassembled rack
- Thermometer, glass, 12 in., partial immersion, -20 to 110°C
- Watch glass, flint glass, 50 mm diameter, (2)

Rectangular Magnifying Glass with Built-in Collapsible Stand

NEW

The ergonomic handle adds comfort while in handheld use, or easily transition to hands-free use by extending the metal drop-down legs.

- Offer the versatility of handheld or hands-free use
- The 2x glass lens with a built-in 11.5x spot magnifier increases the magnifier's range of use while providing maximum durability
- SureGrip handle adds comfort while in handheld use
- Easily transition to hands-free use by extending the metal drop-down legs that easily stow inside of the handle
- Rectangular shape of this magnifier is designed specifically with reading in mind
- Rubberized handle is mounted at an angle for additional comfort, while providing a more natural viewing position
- Variable range-of-use while in the stand position is great for threading needles, removing splinters, or any time when two hands are needed
- Ideal for those with limited hand strength, who also want the durability of a glass lens
- Includes a soft case for protection between uses
- Two per pack

fisherbrand Elite™ Adjustable-Volume Pipettors

Extremely low plunger forces work longer without fatigue and reduce the risk of RSI.

- Fully autoclavable — entire pipette can be steam autoclaved
- Soft-touch tip ejection — a gearing mechanism reducing tip ejection force up to 50%
- Ergonomic comfortable lightweight handle — comfortable grip and effortless tip attachment
- Optimal fit with SureOne™ pipette tips — best pipetting performance
- Super blow-out piston — creates 150% bigger air push than conventional piston for delivery of the micro size drops

Research™ plus, Mechanical Single-Channel Pipettes

Adapt for specific liquids or other external conditions with these ultra-light fully autoclavable pipettes. Pipettes feature a spring loaded tip cone, a secondary adjustment option and an improved volume display.

- Volume adjustment feature allows desired volume to be reached in few quick turns
- Control button and ejectors low operating force are positioned for ergonomics
- 4-digit, magnifying-shape volume display
- Calibration display and adjustment opening for specific liquids and volumes
- Uses renowned PhysioCare Concept™ thus reduces strain on hand and arm during pipetting, maintains balance, minimal user exertion
- Quick lock makes lower part particularly easy to remove and service (not available for 5 and 10 mL pipettes)
- Spring loaded tip cone promotes tight fit to tip (not available for 5 and 10 mL pipettes)
- Has ability to be autoclaved without disassembling

Applications

- Pipetting liquids
- Mixing liquids
- Filling of plates, gels, and reaction vessels
- Phase extraction and removal of supernatants

Eisco™ High Performance Variable Volume Micropipette

These micropipettes measure and deliver precise volumes from 0.1 µL to 10 mL.

- Features a soft and lightweight operation with an ergonomic, soft touch tip ejector designed to minimize hand fatigue, reduce thumb stress and to increase comfort with prolonged use
- Fully autoclavable with a durable, autoclavable PVDF tip cone
- Slip-resistant thermoplastic elastomer (TPE) body grip to minimize the transfer of body heat to the micropipette resulting in high accuracy, even with continuous use
- Color-coded plungers for easy identification and tip selection
- Simple, easy-to-read volume adjustment
- Calibration conforms to DIN 12650 & EN-ISO 8655 standard ensuring high accuracy and precision
- Individual calibration report enclosed with every micropipette

United Scientific™ Racked Filter Pipette Tips

These filter pipette tips are sterile, racked, and laboratory approved.

- Protect against cross-contamination using these racked, sterile filter pipette tips
- These universal tips are manufactured from polypropylene and the filters are manufactured from polyethylene with a hydrophobic design to prevent liquids and aerosols from entering the body of the micropipette
- These tips are non-cytotoxic, non-hemolytic, and have 99.9% Bacterial Aerosol Filtration Efficiency (BFE)
- DNase, RNase and pyrogen-free
- Packaged in racks of 96 with 10 racks in each

fisherbrand SureOne™ Micropoint Pipette Tips, Universal Fit, Non-Filtered

New, improved Fisherbrand SureOne Reload system offers a full line of micropoint universal fit pipet tips.

- All racked sterile tips are shrink wrapped and certified free of RNase, DNase, ATP, pyrogen, bioburden, PCR inhibitors and endotoxin and DNA. All nonsterile racked and bulk nonfiltered tips are certified free of RNase, DNase, and DNA.
- Inserts are easy to place onto and remove from rack; clip onto rack for a secure fit.
- Lot traceable—all inserts contain the Fisherbrand part number, tip volume, lot number.
- Indented insert holes inhibit tip movement, stabilizing them for multichannel work.
- Contact Clip prevents unnecessary contact with the tips while clipping in inserts.
- Multichannel design; all inserts are 96-well format Robust non-pliable design provides secure seals on every tip.

SureOne Rack Features

- Flush Fit Inserts sit flush with rack, allowing easy multichannel pipetting.
- Recycle Logo molded into all rack components.
- Notched clasp props lid open for autoclave venting.
- Sure Stack lid rim prevents racks from sliding around when stacked and carted around a lab.
- Safe-Lock latch allows for one-handed open and closing ability and won't pop open when dropped.
- Sure-snap design securely holds insert in place, preventing it from being lifted out while pipetting.
- Reversible flip-lid can be either a hinged or lift-off lid; hinged format does not prevent use of a multichannel pipet.

SureOne Reload Packaging Features

- Product information displayed on box.
- Dust Flap prevents debris from contaminating the product.
- Finger Knockouts allow easy access to slide out product.
- Canyon Cut Package allows for easy tip insert removal.
- Reload packaging design saves 58% bench space vs. racked packaging; reduces plastic waste by 52%.

Thermo Scientific™ Samco™ Standard Disposable Transfer Pipettes

Single squeeze draws up to 3.2 mL.

Unbreakable all-in-one pipettes eliminate the hazards of broken glass and exposure to infectious materials.

- Put an end to matching rubber bulb with glass pipette. Since entire unit is disposable, these pipettes prevent cross-contamination to samples and reduce airborne contamination to personnel
- One-piece design molded from see-through, low-density polyethylene
- Inert to biological fluids and most acids
- Work well anywhere there is a need for quick, safe transfer of fluids
- In four ready-to-use styles
- One squeeze draws from 2.0 to 3.3 mL (depending on style used)
- All deliver repeatable drop sizes
- Can be sealed and refrigerated for sample storage (seal with Cat. No. 02-678 Hemato-Seal™ Tube Sealant)

Bel-Art™ Pipette Pump™ Pipetter

Easy one-handed operation that delivers safe, accurate, trouble-free pipetting.

- Pipettes fit smoothly into a flexible tapered chuck
- Thumbwheel on side is rotated for precision aspirating or dispensing
- Plunger may be pressed for quick emptying
- Resistant to acids and alkalis
- Disassemble all parts for cleaning and before autoclaving at 121°C (250°F) for 20 min.; chuck should not be autoclaved
- Replacement silicone rubber chuck and washers are available

Bel-Art™ Fast-Release Pipette Pump™ Pipetters

Pipetting device with rapid release operation.

Fast-release pipetting device is made expressly for pipets that are calibrated to the tip but not to be blown out (retains final drop). Soft, elastic chuck has a threaded collar that tightens to grip glass or plastic pipets securely.

- Provides easy, precise pipetting
- Rotating the knurled thumbwheel draws up or dispenses liquid
- Rapid-release lever provides zip-quick emptying
- Easy to take apart for cleaning
- Sizes are color coded

| Cat. No. | Color | Volume (Metric) | Quantity | Unit of Measure |
|----------------------------|-------|-----------------|----------|-----------------|
| 03-410-546 | Green | 10 mL | 1 | Each |

Bel-Art™ Pipette Pump™ III Pipetters

Easy to use for a longer period of time.

- Ergonomic design enhances comfort, utility, and dispensing precision while helping to reduce the risk of injury from repetitive and awkward pipetting motions.
- Lightweight, one-handed operation minimizes strain on the hand and wrist
 - Fast-release trigger dispenses the entire pipette contents
 - Optimally-located thumb wheel easily rotates for precision aspirating or dispensing, down to a volume of one drop at a time, all while using a relaxed grip
 - Compact design adds only 15.2 cm (6 in.) to the pipette length allowing use in fume hoods and controlled environment glove boxes
 - Self-stabilizing collar inside the silicone chuck holds either glass or plastic pipettes
 - Resistant to acids, alkalis, and most solvents.
 - Can be disassembled for cleaning
 - Overall length: 17.1 cm (6.75 in.)

fisherbrand Sterile Polystyrene Disposable Serological Pipets with Magnifier Stripe

Pipets have improved optical clarity — high-contrast black markings make volumes easier to read.

- Color coded magnifier stripe runs lengthwise along pipet, making meniscus obvious at arm's length — reducing reading errors
- Sterile and nonwetable pipets
- Offer a tolerance of $\pm 2\%$ at full volume and have plug-in mouth end
- 1, 2, 5, 10, 25, and 50 mL pipets have ascending and descending graduations
- Improved tip design on 25 and 50 mL pipets increases the effect of surface tension to minimize dripping
- Color coding on each pipet and on inner bags for multipack pipets make it easy to spot the size needed
- Each pipet lot is tested for sterility, accuracy and endotoxin level
- Cotton plugged

Flip Pipette Filler Set of 5

Designed for efficient one-handed operation. Control air evacuation, liquid uptake, and liquid dispensing with three valves.

- Offer a unique two valve design that allows the top valve to be removed for cleaning and flushing of the pipette filler
- Kit contains one of each of all five colors (red, black, blue, yellow, and green)
- Able to be operated with one hand
- Accommodates pipettes up to 100 mL (bulbs draw 50 mL at a time, for volumes larger than 50 mL user will have to repeat the liquid draw process)
- Made of natural rubber

Tape & Labels

Bel-Art™ Write-On™ Paper Label Tapes

Use pencil, ball-point pen or solvent ink marker to create labels that remain legible under the most demanding laboratory conditions. Tapes resist moisture and most solvents, and are great for use in low temperature applications.

- Adheres to any clean surface, including PTFE fluoropolymer resin-coated materials
- Peels off without leaving a sticky residue
- Pencil, ball-point pen, or solvent ink marker remain legible under the most demanding laboratory conditions
- Colored paper with rubber resin adhesive resists moisture and most solvents
- Withstands a maximum temperature of 157°C (315°F) for 30 minutes or 80°C (176°F) for 24 hours; can be used down to -80°C (-112°F)
- Withstands a steam autoclaving cycle at 121°C (250°F) and gamma irradiation between 13.0 and 45.0 kGy

Thermometers

Durac™ Maximum-Registering Autoclavable Bimetal Thermometer: Without Individual Calibration Report

Indicates the highest temperature achieved and holds that measurement until manually reset.

A maximum-registering pointer (red) is moved up by the temperature-measuring pointer (black) to indicate the highest temperature achieved.

- Threaded connection (1/4 in. NPT) screws directly into in-line processes, or use to mount thermometer on included stand
- Waterproof and pressurized
- Withstands autoclave cycles
- Constructed from durable 304 stainless steel with a glass lens
- Withstands pressure, high temperatures and rust
- Probe length: 50 mm (2 in.)
- Includes multilanguage (English, French, German, Italian, Portuguese and Spanish) instructions and Statement of Test and Calibration traceable to NIST™

COMPLIANCE: Traceable to NIST

Easy-Read™ General Purpose Liquid-In-Glass Thermometers: Partial Immersion

Easy-to-read partial immersion thermometers.

- Lead-free, yellow back glass and black liquid provides easy readability and fewer reading errors
- Contains non-toxic, biodegradable, Enviro-Safe™ liquid
- EnviroKleen™ certified

Applications:

- Ideal for use in chemical/petrochemical laboratories, universities, scientific institutions, food and beverage processing, pharmaceutical and medical industries, dairies, breweries and distilleries.

CERTIFICATION: Manufactured and tested by our U.S.A. quality team, these thermometers are traceable to NIST and include a multi-language (English, French, German, Italian, Portuguese, and Spanish) Statement of Accuracy and Traceability.

fisherbrand Traceable™ Lollipop™ Shockproof/ Waterproof Thermometer

Offers minimum/maximum temperature readings.

Water-resistant and is ideal for wet labs, wash-down areas, and most field applications.

- Safer replacement for hazardous mercury units
- Stainless steel probe is resistant to most laboratory chemicals
- Shockproof in drop tests up to 5 ft.
- Memory recalls highest and lowest temperature readings which are updated every second
- Solid-state construction eliminates dangers inherent in breakable glass
- Bright and easy to view 0.25 in. high display
- Traceable to NIST for accuracy
- Temperature range: -50° to +300°C (-58° to +572°F)
- Resolution: 0.1° from -20° to 200°; 1° outside this range
- Accuracy: $\pm 1^{\circ}\text{C}$ between 0° and 100°C
- Stem diameter: 3.5 mm (0.14 in.)
- Stem length: 203 mm (8 in.)
- Overall length: 260 mm (10.25 in.)
- Width: 44.4 mm (1.75 in.)
- Depth: 12.7 mm (0.5 in.)
- Weight: 0.87 oz.

CERTIFICATION: Individually serial-numbered Traceable Certificate is provided from an ISO 17025 calibration laboratory accredited by A2 LA. It indicates traceability to standards provided by NIST.

fisherbrand Long-Stem Digital Thermometer

Durable and safe, containing no mercury or alcohol. Rugged and versatile digital thermometers to read soil, or stir and measure the temperature of solutions. Can also be used with incubators.

- Accuracy: $\pm 1^{\circ}\text{C}$
- Large, bright 0.2 in. (6 mm) display
- Reads melting/freezing point temperatures, heat of fusion, temperatures hotter than 110°C (230°F)
- Stainless steel probe is resistant to acids, bases and solvents
- Dual temperature range: -50° to +150°C (-58° to +302°F)
- Stem length: 8 in. (20.3 cm); diameter: 3 mm
- Overall length: 11 in. (28 cm)

CERTIFICATION: Individually serial-numbered Traceable Certificate is provided from an ISO 17025 calibration laboratory accredited by A2 LA. It indicates traceability to standards provided by NIST.

fisherbrand Hygro-Thermometer

Jumbo display for humidity, temperature and time.

- Max./Min. humidity and temperature memory
- Ice point alert
- Memory is reset daily
- Outdoor temperature display
- °C/°F exchange
- 12/24 hours format
- Alarm clock
- Alarm snooze

Specifications

- RH range: 20 to 99%
- Temperature range:
 - indoor: 0° to 50°C (32° to 122°F)
 - outdoor: -50° to $+70^{\circ}\text{C}$ (-58° to $+158^{\circ}\text{F}$)
- Alarm duration: 12 min.
- Alarm snooze: 8 min.
- Display size: 79 x 66 mm

fisherbrand Traceable™ Infrared Dual Lasers Thermometer with Type-K Probe

With two laser sightings for accuracy.

- Simple operation — turn on, point at sample and take a reading in less than a second
- Dual lasers indicate outer diameter of the surface area being measured; white LED light illuminates the surface
- Reads both Fahrenheit and Celsius of any surface — solids, semisolids and liquids
- Dual display shows current temperature plus one of the following eight modes: emissivity value, maximum memory, minimum memory, differential, average (time weighted), high temperature alarm, low temperature alarm and probe temperature
- Minimum and maximum feature permits viewing highest and lowest readings at any time
- Displays the average of all readings made while taking measurements and the difference between two readings
- Audible, user-set high and low alarms signal out-of-range conditions
- Display backlight permits viewing in low light conditions

Specifications:

- Range: -60° to +550°C (-76° to +1022°F)
- Range using Type-K thermocouple jack: -64° to +1400°C (-83° to +2552°F)
- Resolution is 0.1°
- Accuracy is ±2% of the reading or 2°C, whichever is greater
- Field of view is 12:1
- Emissivity: 0.1 to 1.00 in 0.01 steps
- Dimensions: 7 x 3.75 x 2 in. (17.8 x 9.5 x 5 cm)
- Weight: 9 oz. (0.2 kg)

CERTIFICATION: Individually serial-numbered Traceable Certificate is provided from an ISO 17025 calibration laboratory accredited by A2 LA. It indicates traceability to standards provided by NIST.

fisherbrand Infrared Thermometer Gun

Unique design permits “point and shoot” readings. Takes instant, less-than-a-second temperature readings of any surface.

- Requires no contact with surface — safely measure temperature in inaccessible or hazardous areas
- Laser-sighting beam permits aiming precisely at target surface
- Readings display in °C or °F
- Includes backlighting and data hold options
- Temperature range: -4° to +518°F and -20° to +270°C with a resolution of 0.1°
- Dimensions: 6.25 x 3 x 2.25 in. (15.9 x 7.6 x 5.7 cm)

Note: Units are not individually calibrated and do not come with a Traceable Certificate.

†Accuracy is given at 18°C to 28°C (64°F to 82°F), less than 80% RH; accuracy specified is for emissivity of 0.95.

Timing

fisherbrand Jumbo Digit Water Resistant Stopwatch

Jumbo 0.5 in. (1.3 cm) digits are easy to read.

Rugged, O-ring-sealed and shock-resistant ABS plastic case with nonslip rubber sides.

- Times to 24 hours
- Features single-action, time-out, cumulative-split and continuous timing
- 0.01 of a second resolution for the first 30 minutes and one-second resolution thereafter
- 0.001% accuracy
- As a chronograph the stopwatch displays time of day in hours, minutes and seconds, as well as AM/PM, date and day of the week
- Time-of-day alarm
- Dimensions: 3 x 2.5 x 0.88 in. (7.6 x 6.4 x 2.2 cm)

CERTIFICATION: Individually serial-numbered Traceable Certificate is provided from an ISO 17025 calibration laboratory accredited by A2 LA. It indicates traceability to standards provided by NIST.

United Scientific™ Digital Timer with Photogates

Microprocessor-controlled four-digit timer.

Designed to be used with air tracks, free-fall apparatus and other equipment.

- Offers eight programmed functions to record counts, time intervals, periods of oscillation, accelerations, acceleration due to gravity and velocities in collisions
- Comes with two photogates

| Cat. No. | Description | Quantity | Unit of Measure |
|------------------------|-------------------------------|----------|-----------------|
| S05928 | Digital Timer with Photogates | 1 | Each |

fisherbrand Digital Timer

Three-button ease and big-digit visibility.

- Timer counts down from 99 minutes, 59 seconds in second increments
- Quartz-crystal accuracy to 0.01%
- Resolution: 1 second
- Automatic memory resets the display to the last programmed time — ideal for repetitive tests
- 0.75 in. (1.9 cm) high digits are readable from 20 ft. away

CERTIFICATION: Individually serial-numbered Traceable Certificate is provided from an ISO 17025 calibration laboratory accredited by A2 LA. It indicates traceability to standards provided by NIST.

Bel-Art™ Polypropylene Sterilizing Trays and Covers

Corrosion-proof polypropylene plastic tray and cover. Trays have rounded corners for easy cleaning and smooth, tapered sides for stacking.

- Ideal for sterilizing instruments, bottles containing agar, deionized water, saline and other reagents, and for safely cleaning glassware in sinks
- Polypropylene covers are 3.2 mm (1/8 in.) thick with a 25.4 mm (1 in.) skirt that fits snugly over the rim of the tray
- Trays and lids are steam autoclavable at 121°C (250°F)

Tubes

Eisco™ Capillary Melting Tubes

Typically used for determining the melting point of various substances.

- Glass capillary tube
- Made of borosilicate 3.3 glass
- Used to melt small amounts of material at high temperatures
- Wall thickness 0.2 mm
- 4 in. (10 cm) long
- Pack of 100 packaged in a plastic tube with cap

WARRANTY: 1 year limited manufacturer

United Scientific™ Microcentrifuge Tubes

For safer use in molecular biology and other biochemical applications.

- Made from high-quality virgin polypropylene
- RNase-, DNase and pyrogen-free
- Include connected snap-cap, large molded-in graduations, and frosted surface for easier writing
- Autoclavable tubes for use in very low temperatures and with various organic solvents
- Maximum RCF 20000

| Cat. No. | Color | Capacity | Quantity | Unit of Measure |

fisherbrand Premium Microcentrifuge Tubes

Flat-top snap caps provide a safe, liquid-tight, reliable seal even with prolonged boiling.

- Capacity: 1.5 mL
- High-clarity polypropylene
- Graduated in 0.1 and 0.25 mL markings
- Withstand forces up to 30,000 x g
- Easy-open caps with needle insertion spot and textured marking area
- Labeling area on tube exterior
- Highly polished interior for maximum sample recovery
- Temperature range of -80° to +121°C
- Fit all standard rotors
- Nonpyrogenic
- Autoclavable at 121°C/15psi for 15 minutes

Thermo Scientific™ Conical Centrifuge Tubes

These premium, high-quality conical tubes are environmentally friendly, and allow for increased traceability with the largest writing area on the market.

- Environmentally friendly recyclable plastic rack that reduces contamination from traditional foam packaging
- Leakproof to protect your samples

| Cat. No. | Capacity | Packaging | Quantity | Unit of Measure |
|----------------------------|----------|-----------|----------|-----------------|
| 12-565-268 | 15 mL | Bulk | 500 | Case |

United Scientific™ Sterile Centrifuge Tubes

Centrifuge tubes featuring high RCF.

- Polypropylene tubes include blue HDPE leak-proof screw caps
- The tubes and caps feature specially-designed flat threads for vacuum-type closure that is leak-free at a pressure of >700 mm Hg
- Highly smooth hydrophobic internal surfaces minimize wall effect
- Silk-screen graduations and a frosted surface make writing easier
- Autoclavable at 121°C and 15 psi for 20 minutes
- Gamma radiation sterilized
- DNase, RNase, pyrogen and latex-free
- Maximum RCF 18,000 (15 mL) and 20,000 (50 mL)
- Amber-colored tubes are suitable for light sensitive applications because they do not allow any light to pass through the samples

United Scientific™ Sterile Self-Standing Centrifuge Tubes, Racked

Centrifuge tubes featuring high RCF.

- Polypropylene tubes include a convenient flat bottom so they stand on their own and HDPE leak-proof caps
- The tubes and caps feature specially-designed flat threads for vacuum-type closure that is leak-free at a pressure of >700 mm Hg
- Highly smooth hydrophobic internal surfaces minimize wall effect
- Silk-screen graduations and a frosted surface make writing easier
- Autoclavable at 121°C and 15 psi for 20 minutes
- Gamma radiation sterilized
- DNase, RNase, pyrogen and latex-free

United Scientific™ MaxiRCF™ Conical Centrifuge Tube

MaxiRCF Centrifuge tubes are free from natural rubber and heavy metals.

- Include leak-proof threaded HDPE caps that are free of added colorings and trace metals.
- A large, white marking spot allows you to easily label samples.
- MaxiRCF™ trace metal-free centrifuge tubes with 20,000 x g maximum RCF work well for any high-density gradient separation.
- They are specifically manufactured to ensure that common trace metals and elements that can interfere with experiments are below an ICP-MS detection level of one part per billion (< 1ppb).
- Metals included in testing are: zinc, boron, iron, copper, manganese, aluminum, silicon, nickel, vanadium, phosphorous, cobalt, chromium, lithium, selenium, cadmium, mercury, arsenic and lead.
- Available in sterile and non-sterile versions.
- Sterile versions are validated according to ISO 11137 for SAL 10-6 and packed 25 tubes per sealed bag, 20 bags per case of 500.
- Non-sterile versions are bulk-packed as a case of 500 tubes.

United Scientific™ Sterile Centrifuge Tube

Polypropylene tubes include blue HDPE leak-proof screw caps, silk-screen black graduations and a large white marking spot.

- Case of 500 polypropylene tubes with blue HDPE leak-proof screw caps included
- Feature silk-screen black graduations, offered at 15 mL or 50 mL with at intervals of 0.5 mL or 2.5 mL
- Autoclavable at 121°C and freezable to -45°C
- Maximum RCF 9000
- Steam sterilized
- Two types of bottoms: self standing or conical bottom

Corning™ 50 mL Conical Centrifuge Tubes

Tested to withstand centrifugation of 16,000 RCF in a fully supported rotor with room temperature water. Falcon 50 mL Conical Centrifuge Tubes are ideal for cell centrifugation; pelleting; separation by density gradients.

Suitable for molecular biology applications including concentrating bacteria for DNA isolation, purification and precipitation of nucleic acids; sample storage (ambient temperature to -80°C); and centrifugation of precipitates.

- Hydrophobic, biologically inert surface for good cell or protein recovery
- Dark blue graduations in 5 mL increments
- White writing area resists solvents
- Irradiated for sterility
- Clarified Polypropylene
- Resistant to alcohols and mild organic solvents (not recommended for extraction procedures)
- Translucent wall for easy viewing
- Stable from -80°C to +121°C (-112°F to +250°F)
- Withstand centrifugal forces to 16,000 x g RCF

| Cat. No. | Material | Max. RCF | Packaging | Quantity | Unit of Measure |

Eisco™ Cross Tubing Connector – Four Way

Connectors

are made of polypropylene and provide leakproof joints in tubing connections.

- Made of polypropylene
- Creates leakproof joints in tubing connections
- Resistant to gases, acids, and solvents
- Autoclavable
- Long lasting
- Pack includes 20 connectors

fisherbrand™ Seamless Cellulose Dialysis Tubing

Retains materials with 12,000 and higher molecular weight.

- Especially useful in analytical chemistry, biology, and pharmaceutical fields
- Highly permeable to water and low molecular weight compounds
- Contains glycerin, water and 1% sulfur
- Must be stored in airtight container or rehumidified before use
- Pore diameter: 4.8 nm

Unless otherwise expressly agreed in writing, all sales are subject to the following terms and conditions:

GENERAL: Fisher Scientific Company L.L.C. ("Seller") hereby offers for sale to the buyer named in the order ("Buyer") the products listed on the face hereof (the "Products") on the express condition that Buyer agrees to accept and be bound by the terms and conditions set forth herein. Any provisions contained in any document issued by Buyer are expressly rejected and if the terms and conditions in this Agreement differ from the terms of Buyer's offer, this document shall be construed as a counter offer and shall not be effective as an acceptance of Buyer's document. Buyer's receipt of Products or Seller's commencement of the services provided hereunder will constitute Buyer's acceptance of this Agreement. This is the complete and exclusive statement of the contract between Seller and Buyer with respect to Buyer's purchase of the Products. No waiver, consent, modification, amendment or change of the terms contained herein shall be binding on Seller unless in writing and signed by Seller and Buyer. Notwithstanding the foregoing, Seller reserves the right to make changes to these Terms and Conditions of Sale at any time by posting such changes here, and such changes shall apply to orders of Products made by Buyer thereafter. Seller's failure to object to terms contained in any subsequent communication from Buyer will not be a waiver or modification of the terms set forth herein. All orders are subject to acceptance in writing by an authorized representative of Seller. Seller reserves the right to reject any order for any reason. By purchasing products from Seller, Buyer agrees that it is purchasing the Products only for its own use and not for purposes of resale. Products purchased pursuant to these Terms and Conditions may not be sold or transferred to any person or entity for purposes of resale. Seller reserves the right to take any action it deems necessary to address Buyer's violation of these terms, including, but not limited to, the suspension of Buyer's ability to purchase Products.

PRICE: All prices published by Seller or quoted by Seller's representatives may be changed at any time without notice. All prices quoted by Seller or Seller's representatives are valid for thirty (30) days, unless otherwise stated in writing. All prices for the Products will be as specified by Seller or, if no price has been specified or quoted, will be Seller's price in effect at the time of shipment. All prices are subject to adjustment on account of specifications, quantities, raw materials, cost of production, shipment arrangements or other terms or conditions which are not part of Seller's original price quotation. List prices may vary from the price displayed on the website for certain products.

TAXES AND OTHER CHARGES: Prices for the Products exclude all sales, value added and other taxes and duties imposed with respect to the sale, delivery, or use of any Products covered hereby, all of which taxes and duties must be paid by Buyer. If Buyer claims any exemption, Buyer must provide a valid, signed certificate or letter of exemption for each respective jurisdiction.

TERMS OF PAYMENT: Seller may invoice Buyer upon shipment for the price and all other charges payable by Buyer in accordance with the terms on the face hereof. If no payment terms are stated on the face hereof, payment shall be net thirty (30) days from the date of invoice. If Buyer fails to pay any amounts when due, Buyer shall pay Seller interest thereon at a periodic rate of one and one-half percent (1.5%) per month (or, if lower, the highest rate permitted by law), together with all costs and expenses (including without limitation reasonable attorneys' fees and disbursements and court costs) incurred by Seller in collecting such overdue amounts or otherwise enforcing Seller's rights hereunder. Seller reserves the right to require from Buyer full or partial payment in advance, or other security that is satisfactory to Seller, at any time that Seller believes in good faith that Buyer's financial condition does not justify the terms of payment specified. All payments shall be made in U.S. Dollars.

DELIVERY; CANCELLATION OR CHANGES BY BUYER: The Products will be shipped to the destination specified by Buyer, F.O.B. Seller's shipping point. Seller will have the right, at its election, to make partial shipments of the Products and to invoice each shipment separately. Seller reserves the right to stop delivery of Products in transit and to withhold shipments in whole or in part if Buyer fails to make any payment to Seller when due or otherwise fails to perform its obligations hereunder. All shipping dates are approximate only, and Seller will not be liable for any loss or damage resulting from any delay in delivery or failure to deliver which is due to any cause beyond Seller's

reasonable control. In the event of a delay due to any cause beyond Seller's reasonable control, Seller reserves the right to terminate the order or to reschedule the shipment within a reasonable period of time, and Buyer will not be entitled to refuse delivery or otherwise be relieved of any obligations as the result of such delay. Products as to which delivery is delayed due to any cause within Buyer's control may be placed in storage by Seller at Buyer's risk and expense and for Buyer's account. Orders in process may be canceled by Buyer only with Seller's written consent and upon payment of Seller's cancellation charges. Orders in process may not be changed by Buyer except with Seller's written consent and upon agreement by the parties as to an appropriate adjustment in the purchase price therefore. Credit will not be allowed for Products returned without the prior written consent of Seller.

TITLE AND RISK OF LOSS: Notwithstanding the trade terms indicated above and subject to Seller's right to stop delivery of Products in transit, title to and risk of loss of the Products will pass to Buyer upon delivery of possession of the Products by Seller to the carrier; provided, however, that title to any software incorporated within or forming a part of the Products shall at all times remain with Seller or the licensor(s) thereof, as the case may be.

WARRANTY: Seller warrants that the Products will operate or perform substantially in conformance with Seller's published specifications and be free from defects in material and workmanship, when subjected to normal, proper and intended usage by properly trained personnel, for the period of time set forth in the product documentation, published specifications or package inserts. If a period of time is not specified in Seller's product documentation, published specifications or package inserts, the warranty period shall be one (1) year from the date of shipment to Buyer for equipment and ninety (90) days for all other products (the "Warranty Period"). Seller agrees during the Warranty Period, to repair or replace, at Seller's option, defective Products so as to cause the same to operate in substantial conformance with said published specifications; provided that Buyer shall (a) promptly notify Seller in writing upon the discovery of any defect, which notice shall include the product model and serial number (if applicable) and details of the warranty claim; and (b) after Seller's review, Seller will provide Buyer with service data and/or a Return Material Authorization ("RMA"), which may include biohazard decontamination procedures and other product-specific handling instructions, then, if applicable, Buyer may return the defective Products to Seller with all costs prepaid by Buyer. Replacement parts may be new or refurbished, at the election of Seller. All replaced parts shall become the property of Seller. Shipment to Buyer of repaired or replacement Products shall be made in accordance with the Delivery provisions of the Seller's Terms and Conditions of Sale.

Consumables are expressly excluded from this warranty. If Seller elects to repair defective medical device instruments, Seller may, in its sole discretion, provide a replacement loaner instrument to Buyer as necessary for use while the instruments are being repaired.

Notwithstanding the foregoing, Products supplied by Seller that are obtained by Seller from an original manufacturer or third party supplier are not warranted by Seller, but Seller agrees to assign to Buyer any warranty rights in such Product that Seller may have from the original manufacturer or third party supplier, to the extent such assignment is allowed by such original manufacturer or third party supplier.

In no event shall Seller have any obligation to make repairs, replacements or corrections required, in whole or in part, as the result of (i) normal wear and tear, (ii) accident, disaster or event of force majeure, (iii) misuse, fault or negligence of or by Buyer, (iv) use of the Products in a manner for which they were not designed, (v) causes external to the Products such as, but not limited to, power failure or electrical power surges, (vi) improper storage and handling of the Products or (vii) use of the Products in combination with equipment or software not supplied by Seller. If Seller determines that Products for which Buyer has requested warranty services are not covered by the warranty hereunder, Buyer shall pay or reimburse Seller for all costs of investigating and responding to such request at Seller's then prevailing time and materials rates. If Seller provides repair services or replacement parts that are not covered by this warranty, Buyer shall pay Seller therefor at Seller's then prevailing time and materials rates. ANY INSTALLATION, MAINTENANCE, REPAIR, SERVICE, RELOCATION OR ALTERATION TO OR

Terms and Conditions of Sale

OF, OR OTHER TAMPERING WITH, THE PRODUCTS PERFORMED BY ANY PERSON OR ENTITY OTHER THAN SELLER WITHOUT SELLER'S PRIOR WRITTEN APPROVAL, OR ANY USE OF REPLACEMENT PARTS NOT SUPPLIED BY SELLER, SHALL IMMEDIATELY VOID AND CANCEL ALL WARRANTIES WITH RESPECT TO THE AFFECTED PRODUCTS.

THE OBLIGATIONS CREATED BY THIS WARRANTY STATEMENT TO REPAIR OR REPLACE A DEFECTIVE PRODUCT SHALL BE THE SOLE REMEDY OF BUYER IN THE EVENT OF A DEFECTIVE PRODUCT. EXCEPT AS EXPRESSLY PROVIDED IN THIS WARRANTY STATEMENT, SELLER DISCLAIMS ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, ORAL OR WRITTEN, WITH RESPECT TO THE PRODUCTS, INCLUDING WITHOUT LIMITATION ALL IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE. SELLER DOES NOT WARRANT THAT THE PRODUCTS ARE ERROR-FREE OR WILL ACCOMPLISH ANY PARTICULAR RESULT.

INDEMNIFICATION BY SELLER: Seller agrees to indemnify, defend and save Buyer, its officers, directors, and employees from and against any and all damages, liabilities, actions, causes of action, suits, claims, demands, losses, costs and expenses (including without limitation reasonable attorney's fees) ("Indemnified Items") for (i) injury to or death of persons or damage to property to the extent caused by the negligence or willful misconduct of Seller, its employees, agents or representatives or contractors in connection with the performance of services at Buyer's premises under this Agreement and (ii) claims that a Product infringes any valid United States patent, copyright or trade secret; provided, however, Seller shall have no liability under this Section to the extent any such Indemnified Items are caused by either (i) the negligence or willful misconduct of Buyer, its employees, agents or representatives or contractors, (ii) by any third party, (iii) use of a Product in combination with equipment or software not supplied by Seller where the Product would not itself be infringing, (iv) compliance with Buyer's designs, specifications or instructions, (v) use of the Product in an application or environment for which it was not designed or (vi) modifications of the Product by anyone other than Seller without Seller's prior written approval. Buyer shall provide Seller prompt written notice of any third party claim covered by Seller's indemnification obligations hereunder. Seller shall have the right to assume exclusive control of the defense of such claim or, at the option of the Seller, to settle the same. Buyer agrees to cooperate reasonably with the Seller in connection with the performance by Seller of its obligations in this Section.

Notwithstanding the above, Seller's infringement related indemnification obligations shall be extinguished and relieved if Seller, at its discretion and at its own expense (a) procures for Buyer the right, at no additional expense to Buyer, to continue using the Product; (b) replaces or modifies the Product so that it becomes non-infringing, provided the modification or replacement does not adversely affect the specifications of the Product; or (c) in the event (a) and (b) are not practical, refund to Buyer the amortized amounts paid by Buyer with respect thereto, based on a five (5) year amortization schedule. The foregoing indemnification provision states Seller's entire liability to Buyer for the claims described herein.

INDEMNIFICATION BY BUYER: Seller agrees to indemnify, defend and save Buyer, its officer, directors, and employees from and against any and all damages, liabilities, actions, causes of action, suits, claims, demands, losses, costs and expenses (including without limitation reasonable attorney's fees) ("Indemnified Items") for (i) injury to or death of persons or damage to property to the extent caused by the negligence or willful misconduct of Seller, its employees, agents or representatives or contractors in connection with the performance of services at Buyer's premises under this Agreement and (ii) claims that a Product infringes any valid United States patent, copyright or trade secret; provided, however, Seller shall have no liability under this Section to the extent any such Indemnified Items are caused by either (i) the negligence or willful misconduct of Buyer, its employees, agents or representatives or contractors, (ii) by any third party, (iii) use of a Product in combination with equipment or software not supplied by Seller where the Product would not itself be infringing, (iv) compliance with Buyer's designs, specifications or instructions, (v) use of the Product in an application or environment for which it was not designed or (vi) modifications of the Product by anyone other than Seller without Seller's prior written approval. Buyer shall provide Seller prompt written notice of any third party claim covered by Seller's indemnification obligations hereunder. Seller shall have the right to assume exclusive control of the defense of such claim or, at the

option of the Seller, to settle the same. Buyer agrees to cooperate reasonably with Seller in connection with the performance by Seller of its obligations in this Section.

Notwithstanding the above, Seller's infringement related indemnification obligations shall be extinguished and relieved if Seller, at its discretion and at its own expense (a) procures for Buyer the right, at no additional expense to Buyer, to continue using the Product; (b) replaces or modifies the Product so that it becomes non-infringing, provided the modification or replacement does not adversely affect the specifications of the Product; or (c) in the event (a) and (b) are not practical, refund to Buyer the amortized amounts paid by Buyer with respect thereto, based on a five (5) year amortization schedule. THE FOREGOING INDEMNIFICATION PROVISION STATES SELLER'S ENTIRE LIABILITY TO BUYER FOR THE CLAIMS DESCRIBED HEREIN.

Buyer shall indemnify, defend with competent and experienced counsel and hold harmless Seller, its parent, subsidiaries, affiliates and divisions, and their respective officers, directors, shareholders and employees, from and against any and all damages, liabilities, actions, causes of action, suits, claims, demands, losses, costs and expenses (including without limitation reasonable attorneys' fees and disbursements and court costs) to the extent arising from or in connection with (i) the negligence or willful misconduct of Buyer, its agents, employees, representatives or contractors; (ii) use of a Product in combination with equipment or software not supplied by Seller where the Product itself would not be infringing; (iii) Seller's compliance with designs, specifications or instructions supplied to Seller by Buyer; (iv) use of a Product in an application or environment for which it was not designed; or (v) modifications of a Product by anyone other than Seller without Seller's prior written approval.

SOFTWARE: With respect to any software products incorporated in or forming a part of the Products hereunder, Seller and Buyer intend and agree that such software products are being licensed and not sold, and that the words "purchase", "sell" or similar or derivative words are understood and agreed to mean "license", and that the word "Buyer" or similar or derivative words are understood and agreed to mean "licensee". Notwithstanding anything to the contrary contained herein, Seller or its licensor, as the case may be, retains all rights and interest in software products provided hereunder.

Seller hereby grants to Buyer a royalty-free, non-exclusive, nontransferable license, without power to sublicense, to use software provided hereunder solely for Buyer's own internal business purposes on the hardware products provided hereunder and to use the related documentation solely for Buyer's own internal business purposes. This license terminates when Buyer's lawful possession of the hardware products provided hereunder ceases, unless earlier terminated as provided herein. Buyer agrees to hold in confidence and not to sell, transfer, license, loan or otherwise make available in any form to third parties the software products and related documentation provided hereunder. Buyer may not disassemble, decompile or reverse engineer, copy, modify, enhance or otherwise change or supplement the software products provided hereunder without Seller's prior written consent. Seller will be entitled to terminate this license if Buyer fails to comply with any term or condition herein. Buyer agrees, upon termination of this license, immediately to return to Seller all software products and related documentation provided hereunder and all copies and portions thereof.

Certain of the software products provided by Seller may be owned by one or more third parties and licensed to Seller. Accordingly, Seller and Buyer agree that such third parties retain ownership of and title to such software products. The warranty and indemnification provisions set forth herein shall not apply to software products owned by third parties and provided hereunder.

LIMITATION OF LIABILITY: NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, THE LIABILITY OF SELLER UNDER THESE TERMS AND CONDITIONS (WHETHER BY REASON OF BREACH OF CONTRACT, TORT, INDEMNIFICATION, OR OTHERWISE, BUT EXCLUDING LIABILITY OF SELLER FOR BREACH OF WARRANTY (THE SOLE REMEDY FOR WHICH SHALL BE AS PROVIDED UNDER SECTION 7 ABOVE)) SHALL NOT EXCEED AN AMOUNT EQUAL TO THE LESSER OF (A) THE TOTAL PURCHASE PRICE THERETOFORE PAID BY BUYER TO SELLER WITH RESPECT TO THE PRODUCT(S) GIVING RISE TO SUCH LIABILITY OR (B) ONE MILLION DOLLARS (\$1,000,000). NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED HEREIN, IN NO

EVENT SHALL SELLER BE LIABLE FOR ANY INDIRECT, SPECIAL, CONSEQUENTIAL OR INCIDENTAL DAMAGES (INCLUDING WITHOUT LIMITATION DAMAGES FOR LOSS OF USE OF FACILITIES OR EQUIPMENT, LOSS OF REVENUE, LOSS OF DATA, LOSS OF PROFITS OR LOSS OF GOODWILL), REGARDLESS OF WHETHER SELLER (a) HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES OR (b) IS NEGLIGENT.

EXPORT RESTRICTIONS: Buyer acknowledges that each Product and any related software and technology, including technical information supplied by Seller or contained in documents (collectively "Items"), is subject to export controls of the U.S. government. The export controls may include, but are not limited to, those of the Export Administration Regulations of the U.S. Department of Commerce (the "EAR"), which may restrict or require licenses for the export of Items from the United States and their re-export from other countries. Buyer shall comply with the EAR and all other applicable laws, regulations, laws, treaties, and agreements relating to the export, re-export, and import of any Item. Buyer shall not, without first obtaining the required license to do so from the appropriate U.S. government agency; (i) export or re-export any Item, or (ii) export, re-export, distribute or supply any Item to any restricted or embargoed country or to a person or entity whose privilege to participate in exports has been denied or restricted by the U.S. government. Buyer shall cooperate fully with Seller in any official or unofficial audit or inspection related to applicable export or import control laws or regulations, and shall indemnify and hold Seller harmless from, or in connection with, any violation of this Section by Buyer or its employees, consultants, agents, or customers.

PROMOTION CODE TERMS AND CONDITIONS: Discounts are valid on the purchase of list-price items only through fishersci.com orders. One-time use only. All promotions and discounts are on Fisher Scientific cart items only. Valid in the U.S. only. To redeem, enter the promo code in the box marked promo code at checkout. Free shipping offers apply to standard shipping only. Not valid with any other promotion. Terms are subject to change. Offer void where prohibited, licensed or restricted by federal, state, provincial or local laws or regulation or agency/institutional policy. Other restrictions may apply.

ACCEPTABLE PAYMENT METHODS: The Seller prefers to receive payment via ACH or other electronic interface methods that directly exchange funds between the Buyer's and Seller's bank accounts. The Seller also accepts checks mailed to one of its lockbox remittance locations. Although the Seller does accept credit card payments at the time of purchase, it does not accept credit card payments after the point of sale.

PROMOTIONAL TERMS FOR HEALTHCARE PROVIDERS AND FEDERAL, STATE AND LOCAL GOVERNMENT CUSTOMERS: Many promotions are not available to our current or potential healthcare customers or to federal, state and local government customers.

Healthcare customers include any healthcare practitioner, other healthcare provider or any individual or organization authorized to prescribe, dispense, purchase or influence the acquisition or use of medical devices or supplies for clinical use. Healthcare customers include, without limitation, any "Health Care Practitioner" under the Massachusetts Marketing Code of Conduct Law (defined at 105 C.M.R. §907.004) or a "Health Care Provider" under the Vermont Prescribed Products Gift Ban and Disclosure Law (defined at Vt. Stat. Ann. tit. 18, §4631a(8)). By participating in any promotion that is subject to the above limitations, Buyer warrants that it is not a current or potential healthcare customer or a federal, state and local government customer. Seller reserves the right to determine Buyer's status in the event of a dispute.

In the event that the promotion is available to Healthcare providers, Buyer acknowledges that the offer may include a discount or other price reduction that must be properly and accurately accounted for and reported by Buyer in accordance with all federal and state laws, including without limitation the federal anti-kickback law (42 C.F.R. § 1320a-7b(b) (3)(A)) and regulations thereunder (42 C.F.R. §1001.952(h)).

MISCELLANEOUS: (a) Buyer may not delegate any duties nor assign any rights or claims hereunder without Seller's prior written consent, and any such attempted delegation or assignment shall be void. (b) The rights and obligations of the parties hereunder shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania, without reference to its choice of law provisions. Each party hereby irrevocably consents to the exclusive jurisdiction of the state and federal courts located

in Allegheny County, Pennsylvania, USA, in any action arising out of or relating to this Agreement and waives any other venue to which it may be entitled by domicile or otherwise. (c) In the event of any legal proceeding between the Seller and Buyer relating to this Agreement, neither party may claim the right to a trial by jury, and both parties waive any right they may have under applicable law or otherwise to a right to a trial by jury. Any action arising under this Agreement must be brought within one (1) year from the date that the cause of action arose. (d) The application to this Agreement of the U.N. Convention on Contracts for the International Sale of Goods is hereby expressly excluded. (e) In the event that any one or more provisions contained herein shall be held by a court of competent jurisdiction to be invalid, illegal or unenforceable in any respect, the validity, legality and enforceability of the remaining provisions contained herein shall remain in full force and effect, unless the revision materially changes the bargain. (f) Seller's failure to enforce, or Seller's waiver of a breach of, any provision contained herein shall not constitute a waiver of any other breach or of such provision. (g) Unless otherwise expressly stated on the Product or in the documentation accompanying the Product, the Product is intended for research only and is not to be used for any other purpose, including without limitation, unauthorized commercial uses, in vitro diagnostic uses, ex vivo or in vivo therapeutic uses, or any type of consumption by or application to humans or animals. (h) Seller shall cooperate with Buyer to monitor invoicing accuracy and will conduct appropriate internal reviews upon request. Reviews shall be limited to once per year and shall cover the prior twelve month period. Reasonable credit shall be given to undercharges and overcharges. If Buyer engages external consultants to review invoice accuracy, Seller reserves the right to charge a reasonable fee for support provided to such party. (i) Buyer agrees that all pricing, discounts and technical information that Seller provides to Buyer are the confidential and proprietary information of Seller. Buyer agrees to (1) keep such information confidential and not disclose such information to any third party, and (2) use such information solely for Buyer's internal purposes and in connection with the Products supplied hereunder. Nothing herein shall restrict the use of information available to the general public. (j) Any notice or communication required or permitted hereunder shall be in writing and shall be deemed received when personally delivered or three (3) business days after being sent by certified mail, postage prepaid, to a party at the address specified herein or at such other address as either party may from time to time designate to the other. (k) Seller may, in its sole discretion, provide (1) applicable Product training to Buyer or its employees, or (2) samples of Products to Buyer for distribution to patients of Buyer. Buyer agrees that any such samples shall be distributed to patients for patient use or, if not so distributed, returned to Seller. Buyer shall not use such samples to provide care to patient and shall not bill patients or third party payers for the provision of such samples.

ACCEPTABLE PAYMENT METHODS: The Seller prefers to receive payment via ACH or other electronic interface methods that directly exchange funds between the Buyer's and Seller's bank accounts. The Seller also accepts checks mailed to one of its lockbox remittance locations. Although the Seller does accept credit card payments at the time of purchase, it does not accept credit card payments after the point of sale.

MEDICARE/MEDICAID REPORTING REQUIREMENTS: If Buyer is a recipient of Medicare/Medicaid funds, Buyer acknowledges that it has been informed of and agrees to fully and accurately account for, and report on its applicable cost report, the total value of any discount, rebate or other compensation paid hereunder in a way that complies with all applicable federal, state and local laws and regulations which establish "Safe Harbor" for discounts. Buyer shall make written request to Seller in the event Buyer requires additional information from Seller in order to meet its reporting requirements. Buyer acknowledges that agreement to such reporting requirement was a condition precedent to Seller's agreement to provide Products and that Seller would not have entered into this Agreement had Buyer not agreed to comply with such obligations.

PRODUCT DESCRIPTIONS: Product Descriptions are provided by the manufacturer of the product and are current as of the date of printing of this catalog. More current descriptions provided by the manufacturers are reflected at fisheredu.com.

Some of the products we sell are time sensitive and must be delivered within a specified period of time. Others may be considered hazardous materials. For time-sensitive materials, please specify the desired delivery date when you want the products to arrive so that you will be available to receive them. There is a charge for time-sensitive and hazardous materials. (See: Shipping Your Order.)

SHIPPING YOUR ORDER

We want your purchase to arrive promptly and undamaged. To ensure this, we only deliver products to a street address, not to a Post Office Box — please remember this when placing your order. Other things to consider for product shipping include:

How should we ship your purchase? We will ship according to your special instructions, whenever possible. Otherwise, we will select the best shipment method, based on the nature of the material, destination, package size and weight.

Do you need extra-quick delivery? Overnight shipping is available for many products at an additional cost, but certain hazardous materials may be exempt from this service — please ask your Customer Service Representative when placing your order.

Is motor freight necessary? Some items must be shipped by motor freight (rather than by small parcel carriers) and will have different shipping costs. These items are noted in our catalog with a "Motor Freight" icon. Call your Customer Service Representative for assistance in calculating these expenses.

Is the material hazardous? There is a single charge of \$27.50 per order for hazardous materials, no matter how many hazardous items are on your order.

Is your purchase live or time-sensitive? Be sure to specify the desired delivery date for all live material orders. Some live products have minimum purchase requirements, require special handling fees or have shipping restrictions. Contact Customer Service for specific details.

ONCE YOU RECEIVE YOUR ORDER

Inspect your shipment! Open and inspect your order immediately upon arrival and notify us of any problems. Report claims for damage within the seven (7) day period after delivery to allow us to remedy problems with shipping companies.

Want to return a product? The dedicated staff at Fisher Science Education Customer Service is committed to resolving any questions or problems you may encounter. Here are the steps to take:

- Please notify us no later than seven (7) days after delivery of any damaged or unsatisfactory shipments
- Obtain a return authorization number from Fisher Science Education Customer Service prior to returning any product.
- Provide the Fisher Science Education Confirmation Number, found in the upper left hand corner of the packing slip or invoice, or your account number and the purchase order number.

NOTE: Products are subject to a fifteen percent (15%) restocking charge, unless they were not supplied in accordance with your order or are defective at the time of delivery.

Products in this catalog are intended for use by children age 13 or over.

LIMITED WARRANTY

Fisher Scientific Company L.L.C. ("Fisher") will make available the manufacturer's warranties, without recourse to Fisher.

However, except as otherwise set forth here, Fisher expressly disclaims all other warranties, whether expressed, implied or statutory, including the warranties of merchantability and fitness for a particular purpose.

In no event shall Fisher be liable for any special, indirect, incidental, consequential or exemplary damages, however arising, even if Fisher Scientific has been advised of the possibility of such damages, out of the sale or use of the products described in this catalog.

Your sole and exclusive remedy for any cause of action arising out of the sale or use of any product described in this catalog shall be repair or replacement of the product or refund of the purchase price at Fisher's option.
