SECTION 1: Identification of the substance/mixture and of the supplier

Product name: Acetylsalicylic Acid

Manufacturer/Supplier Trade name: AquaPhoenix Scientific
Manufacturer/Supplier Article number: S25122

Recommended uses of the product and uses restrictions on use:

Manufacturer Details:
AquaPhoenix Scientific
9 Barnhart Drive, Hanover, PA 17331

Supplier Details:
Fisher Science Education
15 Jet View Drive, Rochester, NY 14624

Emergency telephone number:
Fisher Science Education Emergency Telephone No.: 800-535-5053

SECTION 2: Hazards identification

Classification of the substance or mixture:

Irritant

Acute toxicity (oral, dermal, inhalation), category 4
Skin irritation, category 2
Eye irritation, category 2A
Specific target organ toxicity following single exposure, category 3

Acute Oral Tox. 4
Skin Irrit. 2
Eye Irrit. 2A
STOT SE 3, Respiratory system

Signal word: Warning

Hazard statements:
Harmful if swallowed
Causes skin irritation
Causes serious eye irritation
May cause respiratory irritation

Precautionary statements:
If medical advice is needed, have product container or label at hand
Keep out of reach of children
Read label before use
Avoid breathing dust/fume/gas/mist/vapours/spray
Wash skin thoroughly after handling
Do not eat, drink or smoke when using this product
Use only outdoors or in a well-ventilated area
Wear protective gloves/protective clothing/eye protection/face protection
IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
IF ON SKIN: Wash with soap and water
Call a POISON CENTER or doctor/physician if you feel unwell
Specific treatment (see supplemental first aid instructions on this label)
Rinse mouth
If skin irritation occurs: Get medical advice/attention
If eye irritation persists get medical advice/attention
Take off contaminated clothing and wash before reuse
Store in a well ventilated place. Keep container tightly closed
Store locked up
Dispose of contents and container to an approved waste disposal plant

**Combustible Dust Hazard:**
May form combustible dust concentrations in the air

**Other Non-GHS Classification:**

- **WHMIS**
  - **D2B**
  - **D1B**

- **NFPA/HMIS**

  - **NFPA SCALE (0-4):**
  - Health: 2
  - Flammability: 1
  - Physical Hazard: 1
  - Personal Protection: X

  - **HMIS RATINGS (0-4):**

### SECTION 3 : Composition/information on ingredients

<table>

Percentages are by weight

### SECTION 4 : First aid measures

**Description of first aid measures**

- **After inhalation:** Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Loosen clothing and place exposed in a comfortable position. Seek medical assistance if cough or other symptoms appear.

- **After skin contact:** Wash hands and exposed skin with soap and plenty of water. Seek medical attention if irritation persists or if concerned.

- **After eye contact:** Protect unexposed eye. Flush exposed eye gently using water for 15-20 minutes. Remove contact lenses while rinsing. Seek medical attention if irritation persists or concerned.

- **After swallowing:** Rinse mouth with water. Do not induce vomiting. Never give anything by mouth to an
unconscious person. Seek medical attention if irritation, discomfort, or vomiting persists.

**Most important symptoms and effects, both acute and delayed:**

- Irritation.
- Shortness of breath.
- Headache.
- Nausea.
- Dizziness.
- Vomiting occurs shortly after ingestion, followed by hyperpnea, tinnitus, and lethargy. Mixed respiratory alkalemia and metabolic acidosis are apparent when arterial blood gases are determined. With severe intoxication, coma, seizures, hypoglycemia, hyperthermia, and pulmonary edema may occur. Death is caused by CNS failure and cardiovascular collapse.

**Indication of any immediate medical attention and special treatment needed:**

If seeking medical attention provide SDS document to physician. Physician should treat symptomatically. There is no specific antidote for salicylate intoxication. Sodium bicarbonate is given frequently both to prevent acidemia and to promote salicylate elimination by the kidneys.

---

**SECTION 5 : Firefighting measures**

**Extinguishing media**

**Suitable extinguishing agents:** Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

**For safety reasons unsuitable extinguishing agents:**

**Special hazards arising from the substance or mixture:**

- Thermal decomposition can lead to release of irritating gases and vapors. Carbon oxides.

**Advice for firefighters:**

- **Protective equipment:** Wear protective eyeware, gloves, and clothing. Refer to Section 8.
- **Additional information (precautions):** Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing.

---

**SECTION 6 : Accidental release measures**

**Personal precautions, protective equipment and emergency procedures:**

- Ensure adequate ventilation. Ensure that air-handling systems are operational. Avoid contact with skin, eyes and clothing.

**Environmental precautions:**

- Should not be released into environment. Prevent from reaching drains, sewer, or waterway.

**Methods and material for containment and cleaning up:**

- Wear protective eyeware, gloves, and clothing. Refer to Section 8. Always obey local regulations. If necessary use trained response staff or contractor. Evacuate personnel to safe areas. Containerize for disposal. Refer to Section 13. Keep in suitable closed containers for disposal. Sweep up or vacuum up spillage and collect in suitable container for disposal. Avoid dust generation.

**Reference to other sections:**

---

**SECTION 7 : Handling and storage**

**Precautions for safe handling:**

- Avoid contact with skin, eyes, and clothing. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Follow proper disposal methods. Refer to Section 13. Do not eat, drink, smoke, or use personal products when handling chemical substances.

**Conditions for safe storage, including any incompatibilities:**

- Store in a cool location. Keep away from food and beverages. Protect from freezing and physical damage. Provide ventilation for containers. Keep container tightly sealed. Store away from incompatible materials. Keep in a dry place.
SECTION 8 : Exposure controls/personal protection

Control Parameters: 50-78-2, Acetylsalicylic acid, NIOSH PEL TWA 5 mg/m3

Appropriate Engineering controls: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use or handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor and mists below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above.

Respiratory protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.

Protection of skin: Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.

Eye protection: Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.

General hygienic measures: Perform routine housekeeping. Wash hands before breaks and immediately after handling the product. Avoid contact with skin, eyes, and clothing. Before rewearng wash contaminated clothing.

SECTION 9 : Physical and chemical properties

</table>
Flammability (solid,gaseous): Not Determined
Viscosity:
  a. Kinematic: Not Determined
  b. Dynamic: Not Determined
Density: 1.4 g/cm³

SECTION 10 : Stability and reactivity

Reactivity: Nonreactive under normal conditions.
Chemical stability: Stable under normal conditions. STABLE IN DRY AIR; IN MOIST AIR IT IS GRADUALLY HYDROLYZED INTO SALICYLIC AND ACETIC ACIDS
Possible hazardous reactions: None under normal processing.
Conditions to avoid: Incompatible materials.
Hazardous decomposition products: Carbon oxides.

SECTION 11 : Toxicological information

Acute Toxicity:
Oral: 50-78-2 (Acetylsalicylic acid) LD50 Rat: 1,500 mg/kg

Chronic Toxicity: No additional information.
Corrosion Irritation: No additional information.
Sensitization: No additional information.
Single Target Organ (STOT):
  Inhalation - May cause respiratory irritation.
Numerical Measures: No additional information.
Carcinogenicity: Not listed as a carcinogen (ACGIH, IARC, NTP): 50-78-2 (Acetylsalicylic acid)
Mutagenicity: No additional information.
Reproductive Toxicity: Overexposure may cause reproductive disorder(s) based on tests with laboratory animals

SECTION 12 : Ecological information

Ecotoxicity
  Fish LC50 - Leuciscus idus (Golden orfe) - > 1,000 mg/l - 48 h: 50-78-2 (Acetylsalicylic acid)
  Invertebrates EC50 - Daphnia (water flea) - > 100 mg/l - 48 h: 50-78-2 (Acetylsalicylic acid)
  Bacteria LC50 - Bacteria - > 10,000 mg/l - 48 h: 50-78-2 (Acetylsalicylic acid)

Persistence and degradability: No biodegradation studies were located for acetylsalicylic acid in soil (SRC, 2008); however, acetylsalicylic acid was classified as readily biodegradable in screening tests (7,8). An aqueous hydrolysis half-life of 6.3 days at pH 7.4 and 17 deg C (9), suggests hydrolysis may occur in moist soils (SRC).

Bioaccumulative potential: Bioconcentration in aquatic organisms is low
Mobility in soil: Compound will primarily exist as an anion in the environment and anions generally do not adsorb as strongly to soils containing organic carbon and clay than their neutral counterparts
Other adverse effects:
SECTION 13 : Disposal considerations

Waste disposal recommendations:
Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed together with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

SECTION 14 : Transport information

UN-Number
2811

UN proper shipping name
TOXIC SOLID, ORGANIC,N.O.S. (ACETYLSALICYLIC ACID)

Transport hazard class(es)

Proposition 65 (California):

Chemicals known to cause cancer:
None of the ingredients is listed

Chemicals known to cause reproductive toxicity for females:
50-78-2 Acetylsalicylic acid

Chemicals known to cause reproductive toxicity for males:
None of the ingredients is listed

Chemicals known to cause developmental toxicity:
Acetylsalicylic Acid

50-78-2 Acetylsalicylic acid

Canada

Canadian Domestic Substances List (DSL):
All ingredients are listed.

Canadian NPRI Ingredient Disclosure list (limit 0.1%):
None of the ingredients is listed

Canadian NPRI Ingredient Disclosure list (limit 1%):
None of the ingredients is listed

SECTION 16 : Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
