SECTION 1: Identification of the substance/mixture and of the supplier

Product name: Formic Acid, Reagent Grade

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: S25331

Recommended uses of the product and restrictions on use:

Manufacturer Details:
AquaPhoenix Scientific, Inc
9 Barnhart Drive, Hanover, PA 17331
(717) 632-1291

Supplier Details:
Fisher Science Education
6771 Silver Crest Road, Nazareth, PA 18064
(724)517-1954

Emergency telephone number:
Fisher Science Education Emergency Telephone No.: 800-535-5053

SECTION 2: Hazards identification

Classification of the substance or mixture:
Flammable liquids, category 3
Skin corrosion, category 1A
Serious eye damage, category 1

Hazard statements:
Flammable liquid and vapour.
Causes severe skin burns and eye damage.
Causes serious eye damage.
Harmful to aquatic life.

Precautionary statements:
If medical advice is needed, have product container or label at hand.
Keep out of reach of children.
Read label before use.
Keep away from heat/sparks/open flames/hot surfaces. No smoking.
Keep container tightly closed.
Ground/bond container and receiving equipment.
Use explosion-proof electrical/ventilating/light/…/equipment.
Use only non-sparking tools.
Take precautionary measures against static discharge.
Avoid release to the environment.
Wear protective gloves/protective clothing/eye protection/face protection.
IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.
Store in a well ventilated place. Keep cool.
Dispose of contents and container to an approved waste disposal plant.

Other Non-GHS Classification:

WHMIS
SECTION 3: Composition/information on ingredients

</table>

Percentages are by weight

SECTION 4: First aid measures

Description of first aid measures

After inhalation:
If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.

After skin contact:
Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Consult a physician.

After eye contact:
Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician. Continue rinsing eyes during transport to hospital.

After swallowing:
Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician.

Most important symptoms and effects, both acute and delayed:
The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11. The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11.

Indication of any immediate medical attention and special treatment needed: None

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing agents:
Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

**Unsuitable extinguishing agents:** None

**Special hazards arising from the substance or mixture:**
Carbon oxides.

**Advice for firefighters:**

**Protective equipment:**
Wear self-contained breathing apparatus for firefighting if necessary.

**Additional information (precautions):**
Use water spray to cool unopened containers.

### SECTION 6: Accidental release measures

**Personal precautions, protective equipment and emergency procedures:**
Use personal protective equipment. Avoid breathing vapours, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapours accumulating to form explosive concentrations. Vapours can accumulate in low areas. For personal protection see section 8.

**Environmental precautions:**
Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

**Methods and material for containment and cleaning up:**
Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13).

**Reference to other sections:** None

### SECTION 7: Handling and storage

**Precautions for safe handling:**
Avoid inhalation of vapour or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the build up of electrostatic charge. For precautions see section 2.2.

**Conditions for safe storage, including any incompatibilities:**
Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Vent periodically. Handle and open container with care. Hygroscopic. Refrigerate before opening.

### SECTION 8: Exposure controls/personal protection

**Control Parameters:**
64-18-6, Formic Acid, OSHA PEL: TWA 5 ppm (9 mg/m3).
64-18-6, Formic Acid, ACGIH: TLV: 5 ppm, 9.4 mg/m³ as TWA.
64-18-6, Formic Acid, ACGIH: TLV: 10 ppm, 19 mg/m³ as STEL.
64-18-6, Formic Acid, NIOSH REL: TWA 5 ppm (9 mg/m3); NIOSH IDLH: 30 ppm.

**Appropriate Engineering controls:** Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.
Respiratory protection: Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Protection of skin: Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

Eye protection: Tightly fitting safety goggles. Faceshield (8-inch minimum). Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

General hygienic measures: Complete suit protecting against chemicals. Flame retardant antistatic protective clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

### SECTION 10: Stability and reactivity

Reactivity: No data available.

Chemical stability: Stable under recommended storage conditions. Contains the following stabiliser(s): Water (5 %).  

Created by Global Safety Management, 1-813-435-5161 - www.GSMSDS.com
Possible hazardous reactions:
No data available.

Conditions to avoid:
Heat, flames and sparks.

Incompatible materials:
Strong oxidizing agents, Strong bases, Powdered metals.

Hazardous decomposition products:
Other decomposition products - No data available

In the event of fire: see section 5.

SECTION 11: Toxicological information

<table>
<thead>
<tr>
<th>Acute Toxicity:</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Oral</td>
<td>11900 mg/kg</td>
</tr>
<tr>
<td>LD50 oral-rat: (Ascorbic Acid, 64-18-6)</td>
<td></td>
</tr>
</tbody>
</table>

Chronic Toxicity: No additional information.

Corrosion Irritation: No additional information.

Sensitization: No additional information.

Single Target Organ (STOT): No additional information.

Numerical Measures: No additional information.

Carcinogenicity: IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.
OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

Mutagenicity: No additional information.

Reproductive Toxicity: No additional information.

SECTION 12: Ecological information

Ecotoxicity:
Toxicity to fish: LC50 - Leuciscus idus (Golden orfe) - 46 - 100 mg/l - 96 h
Toxicity to daphnia and other aquatic invertebrates: EC50 - Daphnia magna (Water flea) - 34.2 mg/l - 48 h
Toxicity to bacteria: Pseudomonas putida - 46.7 mg/l - 17 h

Persistence and degradability:
Biodegradability Result: > 90 % - Readily biodegradable. Biochemical Oxygen Demand (BOD) 86 mg/g. Chemical Oxygen Demand (COD) 348 mg/g. Ratio BOD/ThBOD 8.60 %.

Bioaccumulative potential:
Bioaccumulation is unlikely.

**Mobility in soil:**
No data available.

**Other adverse effects:** None

### SECTION 13: Disposal considerations

**Waste disposal recommendations:**
Product Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Offer surplus and non-recyclable solutions to a licensed disposal company. Contact a licensed professional waste disposal service to dispose of this material.

### SECTION 14: Transport information

**UN-Number:**
1779

**UN proper shipping name:**
Formic acid Reportable Quantity (RQ): 5000 lbs

**Transport hazard class(es):** None

**Packing group:** II

**Environmental hazard:** None

**Transport in bulk:** Not Applicable

**Special precautions for user:** None

### SECTION 15: Regulatory information

**United States (USA)**

**SARA Section 311/312 (Specific toxic chemical listings):**
Acute, Chronic, Fire

**SARA Section 313 (Specific toxic chemical listings):**
64-18-6 Formic Acid.

**RCRA (hazardous waste code):**
None of the ingredients are listed.

**TSCA (Toxic Substances Control Act):**
None of the ingredients are listed.

**CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):**
None of the ingredients are listed.

**Proposition 65 (California):**

**Chemicals known to cause cancer:**
None of the ingredients are listed.

**Chemicals known to cause reproductive toxicity for females:**
None of the ingredients are listed.

**Chemicals known to cause reproductive toxicity for males:**
None of the ingredients are listed.

Chemicals known to cause developmental toxicity:
None of the ingredients are listed.

Canada

Canadian Domestic Substances List (DSL):
All ingredients are listed.

Canadian NPRI Ingredient Disclosure list (limit 0.1%):
None of the ingredients are listed.

Canadian NPRI Ingredient Disclosure list (limit 1%):
None of the ingredients are listed.

SECTION 16: Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note. The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment. The information contained herein is, to the best of our knowledge and belief, accurate. However, since the conditions of handling and use are beyond our control, we make no guarantee of results, and assume no liability for damages incurred by the use of this material. It is the responsibility of the user to comply with all applicable laws and regulations applicable to this material.
