

Empowering Women to Lead Healthy Lives

Comprehensive Testing Capabilities

Women depend on their healthcare providers to remain on the leading edge of innovation and care for their unique health needs. Count on our portfolio of testing products and equipment to stay up to date with the latest diagnostic solutions. Our extensive offering includes:

Pregnancy Testing

Choose from multiple types of manual, automated, or semi-automated pregnancy testing kits and related pregnancy testing products that help provide physicians and patients with timely diagnostic results. The majority of pregnancy testing products available through the Fisher Healthcare channel meet CLIA-waived or CLIA-moderate requirements, detect hCG levels as low as 10 mIU/mL (serum) or 20 mIU/mL (urine), and can be read visually.

FEATURED PRODUCT

Fisher Healthcare™ Sure-Vue™
Serum/Urine hCG Test Kit
Catalog Number: 23-900-528

Pregnancy Health

Keep your patients informed throughout their pregnancies with a variety of relevant health monitoring products, including control panels, assay kits, and more for rubella, STIs, and GBS. These products deliver definitive and accurate results as well as excellent reproducibility and are available in simple-to-use formats.

FEATURED PRODUCT

BD MAX™ GBS
Catalog Number: B441772

STI Testing

Explore multiple types of in vitro diagnostic STI test kits and other STI testing products to identify the presence of pathogens in a patient's blood, urine, or vaginal fluids. We offer testing and care products for vaginitis or bacterial vaginosis, human immunodeficiency virus (HIV), syphilis, and more.
