Maximize resources and enhance your chain of custody – streamline your labeling process with the Eprelia™ PrintMate™ AS cassette printer.

Lean your workflow and avoid errors within the laboratory

- Save time – prints each cassette in ten seconds or less
- Compact footprint allows the printer to fit easily next to the grossing station
- Print only the cassettes you need, right at the point of use
- Eliminate errors endemic to handwriting processes
- A variety of configurations are available to fit your laboratory's needs

The information you need is right where you want it

- Enjoy the benefits of crisp, clear identifiers printed indelibly on your tissue cassettes
- Maximize your efficiency – printing 2D data matrix barcodes on cassettes allows for the automation of sample identification in downstream processes
- Barcodes printed on cassettes provide a seamless link to LIS records with complete case identification information
- Barcodes can be scanned at the microtome to automate slide printing

Paired for Performance

Epredia PrintMate tissue cassettes feature an all-new surface finish and reinforced print face design engineered to optimize print quality when used with PrintMate AS cassette printers.

They're offered with PrintMate AS-compatible tubes that are precisely engineered to reduce jamming and prevent downtime

The Epredia PrintMate AS cassette printer can be used for batch printing cassettes with optional automated collection system as shown.
