Garment Recycling

DuPont Tyvek Protective Apparel Recycling Program

DuPont offers a recycling program that helps customers within the continental United States recycle used DuPont™ Tyvek™ and IsoClean™ apparel. The program includes transportation, storage, and recycling of garments.

About

The Tyvek Protective Apparel Recycling Program offers the chance to divert garments away from landfills. For every case of 25 Tyvek coveralls that is recycled, 10 pounds of Tyvek garments are diverted from the waste stream and given a second life in products like pallets and park benches. DuPont offers this service at no additional cost to qualifying customers.

The program is easy to participate in and is a cost-effective and responsible choice. On an annualized usage basis, the savings add up.

Key Benefits

- Help the environment
- Lower waste-related costs
- Increase eligibility for grants and incentives
- Meet your ISO 14001 goals
- Boost employee morale
