

Choose Greener Products from the Thermo Scientific Brand

A Trusted Sustainability Partner

As part of our Trusted Sustainability Partner program, the Thermo Scientific™ brand is committed to science-based targets to reduce greenhouse gas emissions and strives to provide solutions to meet your sustainability goals. Explore their range of sustainable products below.

Thermo Scientific Sustain™ Series Low DNA Binding Snap Cap Microcentrifuge Tubes

Redefining DNA Integrity and Sustainability in the Lab

The Sustain Series Snap Cap Microcentrifuge Tube addresses core challenges in biotech, pharmaceutical, and forensic laboratories, where DNA integrity is paramount. With an innovative biobased resin, PFAS-free design, and exceptional DNA low-binding properties, this tube is the perfect solution for labs looking to improve sample recovery and meet stringent regulatory requirements.

Cat. No.	Description	Volume
01-182-573	Thermo Scientific™ Sustain Series Low DNA Binding Snap Cap Microcentrifuge Tube	0.6 mL
01-182-574		1.5 mL
01-182-575		2 mL

Thermo Scientific™ ART™ Barrier Pipette Tips with TipCycle Recycle Kit

The pipette tip and rack mail-back program provides a simple and effective solution for recycling PP#5 single use plastics. The TipCycle Kit included with your case of pipette tips to collect used pipette tips and empty racks. Complete waiver, attach pre-paid shipping label and return for recycling.

Standard Tip Cat. No.	Low Retention Tip Cat. No.	Description	Volume
02-681-573	02-681-544	Standard length, graduated at 2.5 µL, micropoint, universal fit	10 µL
02-681-574	02-681-545	Extended length, graduated at 2.5 µL, micropoint, universal fit	10 µL
02-681-577	02-681-546	Standard length, non-graduated, micropoint, universal fit	20 µL
02-681-540	02-681-539	Standard length, non-graduated, micropoint, universal fit	100 µL
02-681-576	02-681-541	Extended length; graduated at 50, 100, and 200 µL; micropoint, universal fit	200 µL
02-681-575	02-681-547	Extended length; graduated at 100, 200, 500, and 1,000 µL; micropoint, universal fit	1,000 µL
02-681-543	02-681-542	Extended length, non-graduated, micropoint, universal fit	1,000 µL

Thermo Scientific™ TSX™ Universal Series General Purpose Ultra-Low Freezers

A more sustainable ULT freezer

Thermo Scientific TSX Universal Series ULT Freezers are designed for adaptability, productivity, and sustainability. From sealed system and cabinet construction to software architecture and electrical components, each element of TSX Universal freezers has undergone significant testing and improvements.

- ENERGY STAR certified large capacity ULT freezer
- 12-year warranty

Cat. No.	Capacity Cu. Ft. (Liters)	Rack Capacity (2 Inch Boxes)
TSX40086FA	19.4 (549)	16 (400)
TSX50086FA	24.1 (682)	20 (500)
TSX60086FA	28.8 (816)	24 (600)
TSX70086FA	33.5 (949)	28 (700)

Custom & Bulk Chemical Service Solutions

Reduce Your Carbon Footprint with Returnable Containers

When handling large quantities of high-purity solvents, choose the FisherPak™ Solvent Delivery System to enhance safety and reduce your environmental impact. Using this rotational supply chain model, you can get solvents delivered to your laboratory or production facility securely and efficiently in returnable containers, including stainless-steel barrels and drums, intermediate bulk containers (IBC), and container totes.

Identifying Leaders in Climate Action

The Trusted Sustainability Partner program identifies suppliers who demonstrate a commitment to protecting the environment by meeting a strict set of criteria. Qualifying suppliers can show they are dedicated to taking action to help prevent the worst impacts of climate change as outlined by the 2015 Paris Agreement.

Look for the Trusted Sustainability Partner icon  on fishersci.com or fishersci.ca to find more products developed to help advance your sustainability goals.

Visit fishersci.com/trusted-sustainability-partner or fishersci.ca/trusted-sustainability-partner to learn more about the rigorous qualification standards for the Trusted Sustainability Partner program.
