

SafeMask® FreeFlow™

Procedure Earloop Face Masks
with Air Space™ Technology

BREATHE EASY, SEE CLEARLY

Contoured pleats create a unique pocket that allows air to flow freely.

Integrated anti-fog strip ensures clear vision.

Innovative contoured pleats create a unique pocket that allows air to flow freely. Integrated strip prevents eyewear from fogging. Ideal for those who feel claustrophobic in ordinary masks.

Available colors:

FEATURES

BENEFITS

Innovative Air Space™ technology

Contoured pleats create a unique air pocket for breathability

Non-woven, spun-bonded outer shell

Maximum fluid resistance without compromising breathability; will not lint, tear or shred

High-quality filter layer meets ASTM F2100 Levels 1, 2 and 3 performance requirements

Provides optimal filtration for every situation or procedure

Spunbond polypropylene, white, dye-free inner layer is fluid resistant and water repellant with a high wicking capacity

Keeps face clean and dry

Soft, stretchy, ultrasonically sealed earloops attached to the outside of the mask

Prevent pulling and irritation

Adjustable, extra-length, enclosed aluminum nose piece

Creates a personalized fit

Unique fog-free strip

Prevents eyewear from fogging

Ultrasonically sealed mask body

Eliminates rough edges that can irritate and scratch and prevents holes and defects
