Protecting What Matters Most

## Logo/Customization

### Flashlights

#### Custom Engraving

Make your Streamlight flashlights a little more personal with custom laser engraving.

#### About

Whether you're celebrating a safety award or corporate event, showing appreciation to an employee, or displaying your logo, website, or department, Streamlight can personalize your flashlights to meet your needs.

To have your product engraved, note "Custom Imprinting" on your order form and include your camera-ready artwork (.bmp file) or use one of our typefaces. A customer service representative (CSR) will contact you and send an engraving order form for your approval and signature.

#### FAQs

Most Streamlight aluminum flashlights can be laser engraved. To help address your questions regarding our flashlight engraving program, please read further.

- Engraving size depends on the dimensions of the engravable area of each light (noted on imprint guides)
- The location of the engraving depends on which light is being personalized
- Please allow an additional lead time of one to two weeks for most orders; call ahead for a lead-time estimate for larger orders
- Your artwork must be supplied as a black and white bitmap (.bmp) file
