Rapid Order

Rapid Order is the quickest, most efficient way to place an order on fishersci.com and is the only way to find child parts (smaller quantities) of selected items with part numbers ending in PK or EA, and special order items such as ethanol. This feature enables you to create an entire order by keying in only the Fisher Scientific catalog number, unit of measure, and quantity for as many items as you wish.

Click on Place Rapid Order Link found in the upper right-hand corner of the www.fishersci.com web site

Ordering Ethanol

Place orders using the "Rapid Order" screen as detailed above. This product is manufactured by Decon Laboratories and billed every two weeks. Questions?, contact Jon.Perry@thermofisher.com
