

# SAFETY DATA SHEET

Creation Date 01-May-2012

Revision Date 25-Dec-2021

Revision Number 5

## 1. Identification

#### **Product Name**

#### Octyl chloroformate

#### Cat No. :

AC314550000; AC314550050; AC314550250

CAS No Synonyms 7452-59-7 No information available

Recommended Use Uses advised against

Laboratory chemicals. Food, drug, pesticide or biocidal product use.

#### Details of the supplier of the safety data sheet

<u>Company</u>

Fisher Scientific Company One Reagent Lane Fair Lawn, NJ 07410 Tel: (201) 796-7100 Acros Organics One Reagent Lane Fair Lawn, NJ 07410

**Emergency Telephone Number** 

For information **US** call: 001-800-ACROS-01 / **Europe** call: +32 14 57 52 11 Emergency Number **US:**001-201-796-7100 / **Europe:** +32 14 57 52 99 **CHEMTREC** Tel. No.**US:**001-800-424-9300 / **Europe:**001-703-527-3887

#### 2. Hazard(s) identification

#### **Classification**

This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)

Flammable liquids Acute oral toxicity Acute dermal toxicity Acute Inhalation Toxicity - Vapors Skin Corrosion/Irritation Serious Eye Damage/Eye Irritation Specific target organ toxicity (single exposure) Target Organs - Respiratory system. Category 4 Category 3 Category 3 Category 3 Category 1 B Category 1 Category 3

#### Label Elements

Signal Word Danger

#### Hazard Statements

Combustible liquid Causes severe skin burns and eye damage May cause respiratory irritation Toxic if swallowed, in contact with skin or if inhaled

#### Precautionary Statements Prevention

Wash face, hands and any exposed skin thoroughly after handling Do not eat, drink or smoke when using this product Wear protective gloves/protective clothing/eye protection/face protection Use only outdoors or in a well-ventilated area Do not breathe dust/fume/gas/mist/vapors/spray Keep away from heat/sparks/open flames/hot surfaces. - No smoking Keep cool Response Immediately call a POISON CENTER or doctor/physician Inhalation IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing Skin Wash contaminated clothing before reuse IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower Eves IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing Ingestion Rinse mouth Do NOT induce vomiting Fire In case of fire: Use CO2, dry chemical, or foam for extinction Storage Store locked up Store in a well-ventilated place. Keep container tightly closed Disposal Dispose of contents/container to an approved waste disposal plant Hazards not otherwise classified (HNOC) Lachrymator (substance which increases the flow of tears)

## 3. Composition/Information on Ingredients

| Component                          | CAS No    | Weight % |
|------------------------------------|-----------|----------|
| Carbonochloridic acid, octyl ester | 7452-59-7 | >95      |

| 4. First-aid measures |  |  |  |  |
|-----------------------|--|--|--|--|
| General Advice        | Show this safety data sheet to the doctor in attendance. Immediate medical attention is required.  |  |  |  |
| Eye Contact           | Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice. |  |  |  |

| Skin Contact                        | Wash off immediately with plenty of water for at least 15 minutes. Immediate medical attention is required.  |
|-------------------------------------|--|
| Inhalation                          | If not breathing, give artificial respiration. Do not use mouth-to-mouth method if victim ingested or inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Remove to fresh air. Immediate medical attention is required.   |
| Ingestion                           | Do NOT induce vomiting. Call a physician or poison control center immediately.   |
| Most important symptoms and effects | Causes burns by all exposure routes. Symptoms of overexposure may be headache, dizziness, tiredness, nausea and vomiting: Product is a corrosive material. Use of gastric lavage or emesis is contraindicated. Possible perforation of stomach or esophagus should be investigated: Ingestion causes severe swelling, severe damage to the delicate tissue and danger of perforation |
| Notes to Physician                  | Treat symptomatically  |
|                                     | 5. Fire-fighting measures  |

#### 5. File-fighting measures

| Suitable Extinguishing Media                 | Water spray, carbon dioxide (CO2), dry chemical, alcohol-resistant foam. Water mist may be used to cool closed containers. |
|--|--|
| Unsuitable Extinguishing Media               | No information available   |
| Flash Point                                  | 75 °C / 167 °F   |
| Method -                                     | No information available   |
| Autoignition Temperature<br>Explosion Limits | No information available   |
| Upper  | No data available  |
| Lower  | No data available  |
| Sensitivity to Mechanical Impac              |  |
| Sensitivity to Static Discharge              | No information available   |

**Specific Hazards Arising from the Chemical** Thermal decomposition can lead to release of irritating gases and vapors. The product causes burns of eyes, skin and mucous membranes. Combustible material. Containers may explode when heated.

#### **Hazardous Combustion Products**

Carbon monoxide (CO). Carbon dioxide (CO<sub>2</sub>). Hydrogen chloride gas.

#### **Protective Equipment and Precautions for Firefighters**

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear. Thermal decomposition can lead to release of irritating gases and vapors.

| <u>NFPA</u><br>Health<br>3  | Flammability<br>2  | Instability<br>1   | Physical hazards<br>N/A        |
|---|--|--------------------|--------------------------------|
|   | 6. Accidental re   | lease measures     |                                |
| Personal Precautions Ensure adequate ventilation. Use personal protective equipment as required. Evacuate personnel to safe areas. Keep people away from and upwind of spill/leak. Remove all sources of ignition. Take precautionary measures against static discharges. |  |                    |                                |
| Environmental Precautions   | Should not be released int                                   | o the environment. |                                |
| Methods for Containment and Clu<br>Up   | ean Keep in suitable, closed co<br>Remove all sources of ign |                    | vith inert absorbent material. |

|                               | 7. Handling and storage   |
|-------------------------------|---|
| Handling                      | Do not get in eyes, on skin, or on clothing. Wear personal protective equipment/face protection. Use only under a chemical fume hood. Do not breathe mist/vapors/spray. Do not ingest. If swallowed then seek immediate medical assistance. Keep away from open flames, hot surfaces and sources of ignition. |
| Storage.                      | Keep away from heat, sparks and flame. Keep under nitrogen. Keep containers tightly closed in a dry, cool and well-ventilated place. To maintain product quality: Keep refrigerated. Incompatible Materials. Bases. Strong oxidizing agents. Alcohols. Amines.  |
| 8. E                          | xposure controls / personal protection  |
| Exposure Guidelines           | This product does not contain any hazardous materials with occupational exposure limitsestablished by the region specific regulatory bodies.  |
| Engineering Measures          | Ensure adequate ventilation, especially in confined areas. Ensure that eyewash stations and safety showers are close to the workstation location.   |
| Personal Protective Equipment |   |
| Eye/face Protection           | Wear appropriate protective eyeglasses or chemical safety goggles as described by OSHA's eye and face protection regulations in 29 CFR 1910.133 or European Standard EN166.   |
| Skin and body protection      | Wear appropriate protective gloves and clothing to prevent skin exposure.   |
| Respiratory Protection        | Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.   |
| Hygiene Measures              | Handle in accordance with good industrial hygiene and safety practice.  |

| Other Adverse Effects   | The toxicological p  | The toxicological properties have not been fully investigated.                        |                     |                    |                  |
| 12. Ecological information  |  |   |                     |                    |                  |
| Ecotoxicity   | 2001   |   |                     |                    |                  |

Ecotoxicity

Do not empty into drains.

Waste Disposal Methods

| Persistence and Degradability        | Insoluble in water Persistence is unlikely based on information available.  |  |
|--------------------------------------|---|--|
| <b>Bioaccumulation/ Accumulation</b> | No information available.   |  |
| Mobility                             | Is not likely mobile in the environment due its low water solubility. Will likely be mobile in the environment due to its volatility. |  |

### 13. Disposal considerations

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification.
